

Introduction

Driven by a mission to deliver accessible, efficient, and results-driven leadership and management consulting, NorthElevate Consulting empowers small and medium-sized businesses to reach their full potential. We are a reliable partner dedicated to creating measurable value and fostering long-term performance through tailored strategies in talent, leadership, operations, business optimization, and brand development. Upholding values of excellence, trust, and client success, guided by core principles of integrity, ownership, commitment, and focus, we strive to redefine the local SME landscape by building resilient enterprises equipped for sustainable growth and confident leadership in a dynamic business environment.

Past Performances

- Saved \$17K and 288 manhours annually by developing and implementing a solution to automate site-wide power consumption readings while improving report accuracy.
- Improved nuclear operator qualification processes, resulting in an increase in on-time qualification rate by 28%.
- Developed training policies for new hires and existing employees, increasing employee training rate by 10% and technical competencies.
- Developed procedures for complex electrical work, resulting in zero deficiencies and 100% system uptime.
