STEEPLE RESTORATION

Over the last few weeks there has been a flurry of activity going on at the Union Meeting Hall. The upgrades to the existing bathroom in order to make it ADA compliant are nearing completion. Work has also begun on the steeple. Rebuilt in 1976 after being stuck by lightning, the 45 year old steeple is due for repair work. During this time the building will be fenced off for safety and events will be limited.

FUN FACT: Historical evidence suggests that there was never a bell in the church tower
