

Key Questions to Ask Your Healthcare Provider

What kinds of tests can you run to identify why I'm feeling this...?

What's the treatment plan you recommend? When would that start?

How do my pre-existing conditions impact my treatment for...?

What side effects should I expect from this medication?

What side effects would require emergency attention?

Are there certain lifestyle changes I can make to improve my condition?

Is there a certified nutritionist, covered by my insurance, who can help me with my diet?

How can I meet with a social worker or patient advocate who can connect me with additional resources?
