

Ergonomic Safety Ladder System for Bell 505 Helicopter

A) 8HELICADET

96" tall. Elevated fixed cadet base fits over runners for stability and access. \$2966.

B) 32LNCHELIPLT

Wide standing 32" high platform inside a safety cage, yellow safety handrails, slip-resistant deck and treads. ANSI 14.7 OSHA 375 LB. \$4795.

C) 6HELIPYLON

72" tall. Folding pylon base provides stability and decreases storage footprint. \$2622.

Elevated cadet base has been configured to fit between the runners to allow stable close working access.
