## Ergonomic Safety Ladder System for Airbus AS365

### A) 10HELICADET

120" tall. Slanted profile allows easy reach to service rotor blade assembly. Fixed cadet base slides under carriage for stability and access. \$3454.

### B) 8HELIPYLON

96" tall. Allows easy reach to rotor blade assembly, engine and transmission. Folding pylon base allows storage in small footprint. \$2866.

### C) 6HELIPYLON

72" tall. Allows access to engine and transmission, tail rotor, etc. Folding pylon base provides stability and decreases storage footprint. \$2622.

### D) 32LNCHELIPLT

Wide standing 32" high platform inside a safety cage, yellow safety handrails, slip-resistant deck and treads. ANSI 14.7 OSHA 375 LB. \$4795.
