Hello,

My name is Roger Stith and I am the President of Bob Stith Heating, Cooling & Plumbing in Wichita Kansas. We are a family owned business that has been established in Wichita since 1960. I have been involved in every aspect of the business for over 45 years.

For over a year now I have been involved with a product called Cold Plus. We have tested and installed Cold Plus in residential, commercial system, Geo Thermal units, schools, restaurants and industrial systems. This product has been proven to extend the life of your AC or Heat pump system and reduce your energy bill. We also treat every new unit we sell with Cold Plus.

I can tell you from personal experience it works. It is not toxic and is safe for any system using refrigerant and the results are documentable.

If you have any questions about the product please contact me at the number below. I have seen firsthand the results and I am very comfortable recommending Cold Plus. I will be happy to meet with you about Cold Plus and answer any questions you might have. If interested we can treat your HVAC systems. Cold Plus has a Warranty available and has been installed in over 14,000 systems.

Sincerely,

A handwritten signature in blue ink that reads "Roger Stith". The signature is written in a cursive style with a large initial "R".

Roger Stith
