

Cold-Plus® Residential Warranty

THIS CERTIFICATE ACKNOWLEDGES THAT

Creative Energy Solutions, LLC hereby offers the following limited warranty on any residential air conditioning compressor in which Cold-Plus® is installed. If, within the warranty period and warranty terms set forth below, a residential air conditioning compressor fails for any reason, excepting acts of God, Creative Energy Solutions, LLC will replace the compressor with a new comparable compressor at no charge to the customer. All labor, parts and shipping costs to install the compressor are covered by this limited warranty.

For an R-22 unit, the warranty period is Fourteen (14) years if the air conditioning unit is new. If Cold-Plus® is installed in a used R-22 residential unit in good working order (as attested to by a licensed HVAC contractor at the time of the Cold-Plus® installation), the limited warranty shall be the number of years remaining after the age of the unit has been subtracted from Fourteen (14). As an example: an Eight (8) year old residential unit in good working order will have a Six (6) year limited warranty remaining on the compressor.

For a 410A unit, the warranty period is Eleven (11) years if the air conditioning unit is new. If Cold-Plus® is installed in a used 410A residential unit in good working order (as attested to by a licensed HVAC contractor at the time of the Cold-Plus® installation), the limited warranty shall be the number of years remaining after the age of the unit has been subtracted from Eleven (11). As an example: an Eight (8) year old residential unit in good working order will have a Three (3) year limited warranty remaining on the compressor.

All R-22 A/C units over 14 years receive a 1-year parts, labor and shipping replacement warranty on the compressor.
All 410A A/C units over 11 years receive a 1-year parts, labor and shipping replacement warranty on the compressor.

100% Satisfaction Guarantee: the manufacturer of Cold-Plus®, Solid Start, Inc., hereby offers a guarantee of one-year complete satisfaction or a full money back refund.

Residential Warranty

For this limited warranty to be valid, the Residential Compressor Warranty form located on the company website at www.creativeenergysolutions.info must be completed and signed electronically within Sixty (60) days of the date of the Cold-Plus® installation. The Residential Compressor Warranty form must include the name and address of the residential account; the contact person, with phone number, at the residence; the manufacturer of the air conditioning unit in which Cold-Plus® was installed; the serial number of the air conditioning unit(s) in which Cold-Plus® was installed; the installation date; and, the licensed HVAC Company doing the installation of Cold-Plus®. The residence owner or representative, and the licensed HVAC technician doing the Cold-Plus® installation, must both electronically sign the Residential Compressor Warranty card for this Warranty to be valid.
