

Cold-Plus™ Residential Warranty

THIS CERTIFICATE ACKNOWLEDGES THAT

Creative Energy Solutions, Inc. hereby offers the following limited warranty on any residential air conditioning compressor in which Cold-Plus™ is installed. If, within the warranty period and warranty terms set forth below, a residential air conditioning compressor fails for any reason, excepting acts of God, Creative Energy Solutions, Inc. will replace the compressor with a new comparable compressor at no charge to the customer. All labor, parts and shipping costs to install the compressor are covered by this limited warranty.

The warranty period is Fourteen (14) years for a new air conditioning unit. If Cold-Plus™ is installed in a used residential air conditioning unit in good working order as attested to by a licensed HVAC contractor at the time of the Cold-Plus installation, the limited warranty shall be the number of years remaining after the age of the unit has been subtracted from Fourteen (14). Example: an Eight (8) year old residential air conditioning unit in good working order will have a Six (6) year limited warranty remaining.

All R-22 units over 14 years will receive a 1 year parts, labor and shipping replacement warranty on the compressor. All 410A units over 11 years will receive a 1 year parts, labor and shipping replacement warranty on the compressor.

A 100% Satisfaction Guarantee; If, within one year of the Cold-Plus™ installation, you have not received the guaranteed energy savings promised, Creative Energy Solutions, Inc. will refund the price of the product purchased.
