

Dr Leanne Branton would like to invite you to

“Implants in Practice – A Whole Team Approach”

Dentistry is at a crossroads, and it's time to seize the opportunity! Whether you're a practice owner or associate, it's crucial to diversify your revenue streams. In the UK, over 130,000 implants are placed annually, and this number is soaring. Now is your chance to tap into this thriving market by mastering the art of restoring dental implants.

Our course is the ultimate game-changer! We've designed it to be a complete introduction, empowering general dental practitioners to seamlessly integrate implant restoration into their daily practice. From patient assessment and treatment planning to the referral process and digital workflow – we've got you covered. Unleash your true potential and elevate it to unprecedented heights.

But wait, there's more! Your entire team can get in on the action too. With units specially crafted for dental nurses, receptionists, TCO team and hygienists, everyone will be equipped to communicate with absolute certainty about this life-changing treatment. Boost job satisfaction, retain top talent, and create a dynamic practice.

Rest assured, you won't be alone in this journey. Our unwavering support includes one-on-one mentoring, personalised case assessments, and assistance throughout your patients' treatment. So, buckle up and get ready for a game-changing boost to your dental practice – let's restore those implants and revolutionise your success!

COURSE DELIVERED BY

Dr. Leanne Branton is a general practitioner based in Edinburgh where she owns a multidisciplinary specialist practice. She has been placing implants for over a decade and was awarded the Diploma in Implant Dentistry from the Royal College of Surgeons in London. Passionate about obtaining beautiful results for her patients in the aesthetic zone – she continues to get excellent results using digital technology. She regularly lectures on digital dentistry and dental implants. Annually she delivers a unit on Digital Dentistry as part of the MSc in Restorative Dentistry at the University of Plymouth.

COURSE BREAKDOWN

Here's what's in store for you on our comprehensive course.

Module 1: Patient Journey and Referral Process (01/11/23)

Confidently discuss implant treatment options with patients and identify ideal candidates. Master record keeping and guidelines, all while gaining hands-on experience by placing and implant in a model mandible.

Module 2: Implant Crowns and Restorative Process (23/11/23)

Become a pro in implant crowns and their components, understanding the implant restorative kit and taking analogue impressions. Your reception team/TCO can join to learn how to effectively communicate and market dental implants to patients.

Module 3: Treatment Planning and Implant Crown Fitting (14/12/23)

Share and discuss your cases with the group for valuable insights and treatment planning. You'll then learn how to fit both screw-retained and cement-retained implant crowns through practical exercises. Also, master the art of restoring confidently within your practice.

Module 4: Digital Dentistry and the Implant Journey (25/01/23)

Explore the digital implant journey using cutting-edge Primescan technology for digital impressions. Discover the wonders of 3D printing and Cerec technology, transforming your patient outcomes.

Module 5: Lab Partnerships and Clinical Photography (07/02/23)

Forge strong connections with quality lab partners through successful communication. Learn the art of clinical photography to communicate effectively with both patients and your lab partner. Dental nurses will have their own training session on the restoring process, including practical exercises in clinical photography.

Module 6: Periodontal Maintenance for Implants (28/03/23)

Implement a rock-solid maintenance program for implants, addressing periodontal issues within your practice.

Join us for these six face-to-face modules at Southside Dental Care on a monthly basis, where each session lasts 3 hours in the evening. But that's not all – you'll also get access to our online tutorials and training videos for a whole year. By the end of this course, your entire implant team will be upskilled and ready to embark on your dental implant journey with confidence and success.

COURSE FEE £150 per month
