

Doxem NXT is a groundbreaking aerosol insecticide formulated with four active ingredients, each with its own unique mode of action. It is designed to provide effective pest control in a variety of settings, including food handling establishments and residential areas. With its combination of indoxacarb, imidacloprid, novaluron, and pyriproxyfen, Doxem NXT offers both quick knockdown and long-lasting residual control against a wide range of pests.

Features & Benefits:

1. **Innovative Formulation:** Doxem NXT is the first aerosol insecticide to contain indoxacarb, offering a novel approach to pest control.
2. **Multiple Modes of Action:** By combining four active ingredients with distinct modes of action, Doxem NXT minimizes the risk of pest resistance and ensures effective control.
3. **Versatility:** This product can be used with ant and cockroach baits, providing flexibility in pest management strategies.
4. **Residual Control:** With its long-lasting residual effect, Doxem NXT continues to work for up to 180 days after application, providing ongoing protection against pests.

5. **Flexibility in Application:** Suitable for indoor and outdoor use, Doxem NXT can be applied to mattresses, in crack and crevice, void, or spot treatments, making it adaptable to various environments.
6. **Food Handling Use:** Doxem NXT is approved for use in food handling establishments, making it a safe and effective solution for controlling pests in sensitive areas.
7. **Ready-to-Use Aerosol:** With no mixing required, Doxem NXT offers precise application and improved accuracy.
