

## EXTINGUISH PLUS Ant Bait

OUTDOOR USE EXTINGUISH PLUS controls imported and native fire ants and other ants, such as harvester ants, big-headed ants, and Argentine ants. EXTINGUISH PLUS is for use on lawns, landscaped areas, golf courses, and other non-cropland areas such as airports, roadsides, cemeteries, commercial grounds, parks, kennels, school grounds, picnic grounds, athletic fields, campgrounds, and other recreational areas, as well as on grounds surrounding poultry houses (excluding runs and ranges), or corrals and other animal holding areas. Avoid direct exposure of animals to EXTINGUISH PLUS. Do not graze or feed treated lawn or sod clippings to livestock.

TREATMENT	RATE	COMMENTS
<b>Individual Mounds:</b> Imported and native fire ants Harvester ants Big-headed ants Argentine ants	2 to 5 level tablespoons	Distribute bait uniformly around the mound. Do not disturb the mound. Do not apply more than 2 lb/acre. Do not contaminate kitchen utensils by use or storage.
<b>Broadcast Treatment:</b> Imported and native fire ants Harvester ants	1.5 lb/acre [3 oz/5,000 sq ft]	Broadcast bait uniformly with ground (granular spreaders) or aerial equipment.
<b>Broadcast Treatment:</b> Big-headed ants Argentine ants	1 – 2 lb/acre [2–4 oz/5,000 sq ft]	Broadcast bait uniformly with ground (granular spreaders) or aerial equipment.

Apply when ants are active and foraging (when soil temperature is greater than 60° F). To determine if ants are foraging (feeding), place a potato chip near the mound and observe if ants begin feeding. Do not apply product if ants do not feed within a few minutes. Repeat observation at a later time to evaluate if ants are feeding. Apply product when feeding occurs on the potato chip. Repeat applications as needed, but minimum retreatment interval for broadcast applications is 30 days. Apply product when area is dry from dew or irrigation. Do not irrigate for 24 hours after application. The bait will become unattractive to ants if it becomes wet. Ants that are actively foraging will begin picking up the bait soon after application. Grass Forage (Pasture and Rangeland) EXTINGUISH PLUS may be applied to grass forage (pastures and rangeland) for the control of fire ants only in the following states: Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, New Mexico, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia. Use on grass forage (pastures and rangeland) in states other than those listed is unlawful. See Outdoor Use table for application directions. **Do not exceed 8 pounds per acre per year or more than 4 times a year, with a minimum retreatment interval of 90 days. Do not bale and cut treated pastures and rangelands for 7 days following application.** These cutting and baling hay restrictions for pasture and rangeland do not apply when the treated pasture and rangeland is used solely to support COMPANION ANIMALS (e.g., horses, llamas, etc.). Companion animals grazed on treated areas cannot be used for food or feed. EXTINGUISH PLUS may be used on uncultivated, agricultural, non-food crop and non-agricultural land. Container or Nursery Stock: Use EXTINGUISH PLUS in and around container or field grown

ornamental nursery and non-bearing nursery stock. EXTINGUISH® PLUS may also be applied to the soil around non-bearing fruit or nut trees. Do not harvest food/feed from non-bearing fruit/nut tree nursery stocks within 1 year of application, if by chance, they bear fruit within that time. Apply to sod farms or other types of commercial turf. Do not graze or feed grass clippings to livestock. **Do not use on vegetable or other food crops, or commercial seed production.**

**REFILLABLE BAIT STATIONS** Use EXTINGUISH PLUS in refillable bait stations. Place up to 1 ounce (2 tablespoons) of EXTINGUISH PLUS per refillable bait station. Locate stations along the perimeter of a structure or fence line with 1 station every 15 to 30 linear feet. Locate stations near potential pest entry points of a structure or near locations where pests are a problem. Examples include: weep holes, foundation vents, stairs, decks, patios, picnic areas, utility areas, and other areas frequented by pests. Inspect stations frequently and replenish bait if soiled or wet. Affix a sticker to each station indicating the contents of the station following filling. **INDOOR USE** EXTINGUISH PLUS controls imported and native fire ants, as well as other ants, such as: harvester, big-headed, and Argentine ants. Use EXTINGUISH PLUS in homes, residential, commercial and other structures, and in the non-food/ feed areas of institutional, warehousing, and commercial establishments, such as groceries and supermarkets, hotels and motels, hospitals and nursing homes, schools, laboratories, computer facilities, food storage areas, sewers, transportation equipment, pet shops or zoos, and in the inedible product areas of meat or poultry plants. Non-food/feed areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). In the home, cover all food processing surfaces and utensils during treatment or wash thoroughly before use. Cover or remove exposed food. Using a duster or similar equipment, apply bait **ONLY** into cracks and crevices, or other inaccessible areas such as, but not limited to, structural voids, unfinished attics or crawl spaces. Apply 0.25 - 0.5 ounce (2 teaspoons – 1 tablespoon) per crack, crevice, or other inaccessible areas where ants are entering the structure or where ants are nesting. Apply evenly in unfinished attics and crawl spaces at a rate of 0.25 ounce (2 teaspoons) per 100 square feet only if the space is secured or otherwise inaccessible to children or pets.
