

Fahrenheit HERBICIDE

Fahrenheit® is a 38% water soluble **post emergent** granular herbicide for the control of annual renand perennial broadleaf and grasses in labeled warm-season turfgrasses. It can be applied in spring, summer and fall with temperatures above 50°F. Fahrenheit's easy to use formulation produces visible results in 7-10 days. **Retreat for difficult to control weed after four (4) to six (6) weeks.**

Effective Against: Annual and perennial broadleaf weeds and grasses

Active Ingredients: 33% Dicamba 5% Metsulfuron-methyl.

Weeds Controlled and Rates: 139 listed broadleaf and grassy weeds. Rates vary depending on target weeds. Label rates begin at **4.0 grams per gallon of water per 1,000 square feet.**

For optimal efficacy it is suggested to use a non-ionic surfactant (NIS).

Use Sites: residential lawns, commercial lawns, golf courses, sports fields, parks, campsites, recreational areas, roadsides, school grounds, cemeteries, sod farms.

Features & Benefits:

- Fahrenheit produces results in temperatures as low as 50°F.
- Controls weeds faster with two different modes-of-action: (1) Inhibits acetolactate (ALS) and (2) causes abnormal cell growth.
- Three (3) year shelf life if stored properly.
- Fahrenheit is a WDG (water dispersible granule formulation) and needs to be agitated during application for best results.
- Use of a non-ionic surfactant is recommended at 0.5-1.0 ounces (1-2 Tablespoonfuls) per gallon water.

Turfgrass Tolerance: Fahrenheit herbicide may be used on St. Augustine, Bermudagrass, Centipedegrass, and Zoysiagrass. When applied above 85°F may cause temporary growth reduction of St. Augustine.

- Some turf yellowing post application should be expected.
- Turfgrass under moisture stress may result in stunting.
- Use on turf that is one year established.
- Rainfall or irrigation prior to Fahrenheit drying may reduce efficacy. Do not mow lawns two (2) days post application.

NOTE: Read the entire label directions for use, container disposal, conditions of warranties and limitations of liability before using this product. The label is the law.

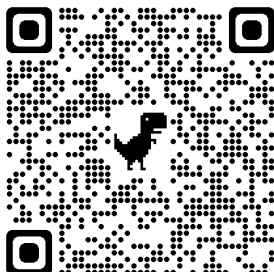

WARRANTY AND CONDITIONS OF SALE: Seller makes no warranty, expressed or implied, concerning the use and handling of this product other than indicated on the label. Buyer assumes all risk of use and handling of this material when such use and handling are contrary to label instructions.
