

## **SpeedZone Southern EW Broadleaf Herbicide for Turf**

### **The confidence of the #1 speed broadleaf herbicide for sensitive turf species**

What it is

### **Product Overview**

SpeedZone Southern Herbicide EW is an excellent selective herbicide that effectively controls over 70 broadleaf weeds in turfgrasses. Provides visible results in just a few hours plus, kills unwanted weeds within one to two weeks. It is ideal to apply on residential sites, athletic fields, roadsides, cemeteries, golf courses, and sod farms. The SpeedZone Southern Herbicide EW is specially formulated with low volatile organic content and lesser odor if compared to the original SpeedZone Southern. With its unique emulsion-in-water formulation, it offers small-sized particles that allow its active ingredients to reach the leaf surface. A selective herbicide that targets and controls weeds like ground ivy, plantain, clover, dandelion, and poison oak. For best results, it is highly suggested to use the herbicide from February to April. Available in a 1 gallon and 2.5 gallon jug.
