

WEB OUT-

Web Out, kills spiders and prevents spider webs on any surface that may support spider web development. Web Out can also be used as a contact pesticide to kill ants, crickets, mosquitoes, cockroaches, perimeter pest insects, and other general pests. Web Out can be applied as a surface application to kill and prevent surface fungus such as mildew. It can be applied to metal, wood, painted surfaces, brick, stucco, fiberglass, concrete, paneling, and other surfaces. The product is ready to use, not a concentrate.

-Web Out can last up to 120 days on indoor surfaces and up to 30-90 days on outdoor surfaces (depending on environmental conditions).

-Completely wet the areas to be treated. One quart covers approximately 200-300 square feet of surface area

- Web Out is biodegradable, non-toxic, non-corrosive and non-flammable. It can be applied around humans and pets. It may not be used on food, food crops, food contact surfaces or animal feed commodities

-Web Out **may be applied in and around** homes, offices, warehouses, buildings, schools, sheds, marinas, docks, and boats, including outdoors and indoors around windows, eaves, soffit areas, playground equipment, garages, basements, and storage areas. Web Out can be applied to metal, wood, painted surfaces, brick, stucco, fiberglass, concrete, paneling, and other surfaces.

Demon WP -

Demon WP is an economical pyrethroid that provides fast knockdown and residual control of more than 30 different pests. Control ants, spiders, cockroaches, and other insects using 40% Cypermethrin contained in 4 water-soluble packets (WSP) per envelope. Cyper WSP is comparable to Demon WP.

OUTDOOR USE RESTRICTIONS

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses.

- Treatment to soil or vegetation around structures,
- Applications to lawns, turf, and other vegetation
- Applications to building foundations up to a maximum height of 3 feet

Commercial & Residential Indoors & Outdoors: Crack-and-Crevice, Spot Treatments, Apartments, Factories, Garages, Hospitals, Hotels, Nursing Homes, Office Buildings, Kennels, Restaurants, Schools, Warehouses, Interior Landscapes, Ornamental Gardens, Parks and Lawns

Indoor Use Restrictions

Do not use in food areas of food-handling establishments, which includes areas for receiving, serving, storage (dry, cold, frozen raw), packaging (canning, bottling, wrapping, boxing), preparing (cleaning, slicing, cooking, grinding), edible waste storage, enclosed processing systems (mills, dairies, edible oils, syrups). In the home, all food-processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.
