

TAURUS SC Termiticide/Insecticide

Read all Label Directions Carefully Before Product Use

- **Target Pests Controlled:** Termites, Ants (Acrobat, Argentine, Big-Headed, Carpenter, Crazy, Odorous, Pavement, Pharaoh, and Thief), Asian lady beetles, Darkling beetles, Cockroaches (Australian, Oriental, Smoky Brown), Black widow spiders, Brown recluse spiders, Cellar and Hobo spiders, Box-elder bugs, Pill bugs, Brown and dog ticks, Centipedes, Cluster Flies, European Earwigs, House Crickets, Millipedes, Paper Wasps, Silverfish, Yellow Jackets
- **Taurus SC Termiticide Insecticide** with 9.1% Fipronil provides best-in-class control of termites, ants and a wide variety of other insect pests including roaches, spiders, ticks and many more. This professional termiticide is labeled to treat subterranean termites, arboreal termites, drywood termites, and dampwood termites. Taurus SC is a non-repellent insecticide that is undetectable to target pests. This allows the pests to touch, ingest, and spread the insecticide throughout their entire colony. Taurus SC will eliminate termite colonies in less than 90 days on average, and ant infestations can be controlled in just a few weeks.
- **OUTDOOR USE ONLY:** Taurus SC is labeled for exterior applications. The only exception is for indoor spot treatments inside wall voids for termites and Carpenter Ants.
- **DO NOT** exceed the specified number of applications per calendar year. More than two applications of Taurus SC per calendar year can be made only if applied according to one of the following frequency and dilution rate application scenarios. The use directions include up to four (4) applications

per year at the 0.03% dilution rate for outside surfaces and along the foundation perimeter of listed structures.

- 0.03% 4 times/calendar year OR
- 0.06% 2 times/calendar year OR
- 0.03% 2 times/calendar year and 0.06% 1 time/calendar year
