

**Spray Mixing: Prepare a diluted spray solution by adding 2 fluid ounces Tekko Pro per gallon of water. Partially fill the mixing container with water, add Tekko® Pro, agitate and fill to the final volume. Agitate before each use. Do not allow spray mixture to stand overnight. Tekko® Pro can be mixed with other EPA registered pesticides and used in accordance with the most restrictive of label limitations and precautions. No label dosage rates may be exceeded. Tank Mixes: Make applications in accordance with those use precautions and label instructions that are consistent for each product. Prepare the tank mix using the label rate of adulticide and Tekko® Pro by adding the adulticide first and making sure it is well mixed and in suspension, then adding the correct amount of Tekko® Pro according to the label instructions below. CONTROL OF STORED PRODUCT PESTS (Including Indian Meal Moths, Rice Moths, Tobacco Moths, Red Flour Beetles, Confused Flour Beetles,**

**Lesser Grain Borers, Merchant Grain Beetles, Saw-toothed Grain Beetles, Warehouse Beetles, Cigarette Beetles, and Dermestid Beetles) Spray Mixing for Surface, Spot, Crack and Crevice Application: Prepare a diluted spray solution by adding 1.5 fluid ounces of Tekko® Pro per gallon of water. Partially fill the mixing container with water, add Tekko® Pro, agitate and fill to final volume. Agitate before each spray application.**
