OVERVIEW

Music and sound creation has always been my passion and expertise. My various roles entail being a composer, producer, singer, songwriter, sound designer, audio editor, audio mixer and audio mastering with experience in television, film, and independent works. I'm skilled in many genres such as orchestral, rock, pop, soul, ethnic, ethereal, and electronic. It's my passion to create strong melodic, layered, textured, and emotional arrangements in conjunction to strong and unique production. The main goal is to establish an emotional connection with the audience to captivate the mood of any scenario whether it be supporting picture or performing it center stage.

SKILLS

- Composing realistic orchestral mockups to picture or for standalone requests.
- 15 years expertise in music arrangement, composition & music production.
- 15 years expertise in sound design, audio editing, mixing and mastering.
- Proficient in various genres such as rock, alternative, pop, soul, electronic & orchestral.
- Proficient in Pro Tools and Logic Pro. Expertise with huge array of audio suite plugins and VST's.
- Also a singer, songwriter, piano player, and guitar player as well.

EARLY YEARS

I have studied musical theatre, music composition, production and performance my entire life. I expanded my education and experience with performance and music theatre at Alexander Dryfoos School of the Arts. I Performed in various theatrical shows and performances as a child up to early adult years as leading and supporting roles. I have also sang in a mass choir with live orchestra players for 8 years. I've received an array of awards for competitions in male vocal solo, songwriting, ensemble and choir performances.
