OVERVIEW

Music and sound creation has always been my passion and expertise. My various roles entail being a composer, producer, singer, songwriter, sound designer, audio editor, audio mixer and audio mastering with experience in television, film, and independent works. I'm skilled in many genres such as orchestral, rock, pop, soul, ethnic, ethereal, and electronic. It's my passion to create strong melodic, layered, textured, and emotional arrangements in conjunction with strong and unique productions. The main goal is to establish an emotional connection with the audience to captivate the mood of any scenario whether it be supporting picture or performing it center stage.

SKILLS

- Composing realistic orchestral mockups to picture or for standalone requests.
- 15 years expertise in music arrangement, composition & music production.
- 15 years expertise in sound design, audio editing, mixing and mastering.
