Performance By...

G03A50 performs well in all soil types but excels in medium-texture soils. Best performance is when planting populations are at or above grower-standard populations. G03A50 is an excellent choice for any cropping rotation.

Consult bag tags for E-Z Refuge product herbicide options. Only those labeled E-Z may be sprayed with glufosinate ammonium based herbicides, including Liberty® herbicide. HERCULEX® and the HERCULEX Shields are trademarks of Dow AgroSciences, LLC. HERCULEX Insect Protection technology by Dow AgroSciences. Some versions of this product family may not contain the listed traits.

1-9 Scale: 1 = Best, Tallest or Highest; 9 = Worst, Shortest or Lowest; (-) = Not Available, NA = Not Applicable.

Seed products with the LibertyLink® (LL) trait are resistant to the herbicide glufosinate ammonium, an alternative to glyphosate in corn and soybeans, and combine high-yielding genetics with the powerful, non-selective, postemergent weed control of Liberty® herbicide for optimum yield and excellent weed control.
