

Customer Instructions:

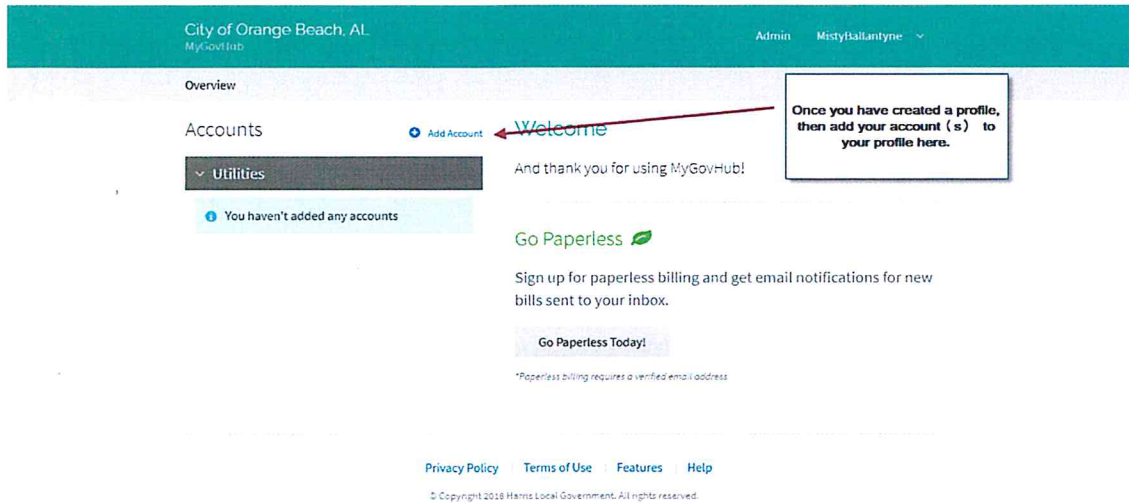

To use the Quick Pay option they do not have to set up a profile, they can simply key in address and account number and pay with their credit card. When keying in the Service Address you can type in the first 3 characters of the Address and the print will turn green letting you know it can search on that criteria.

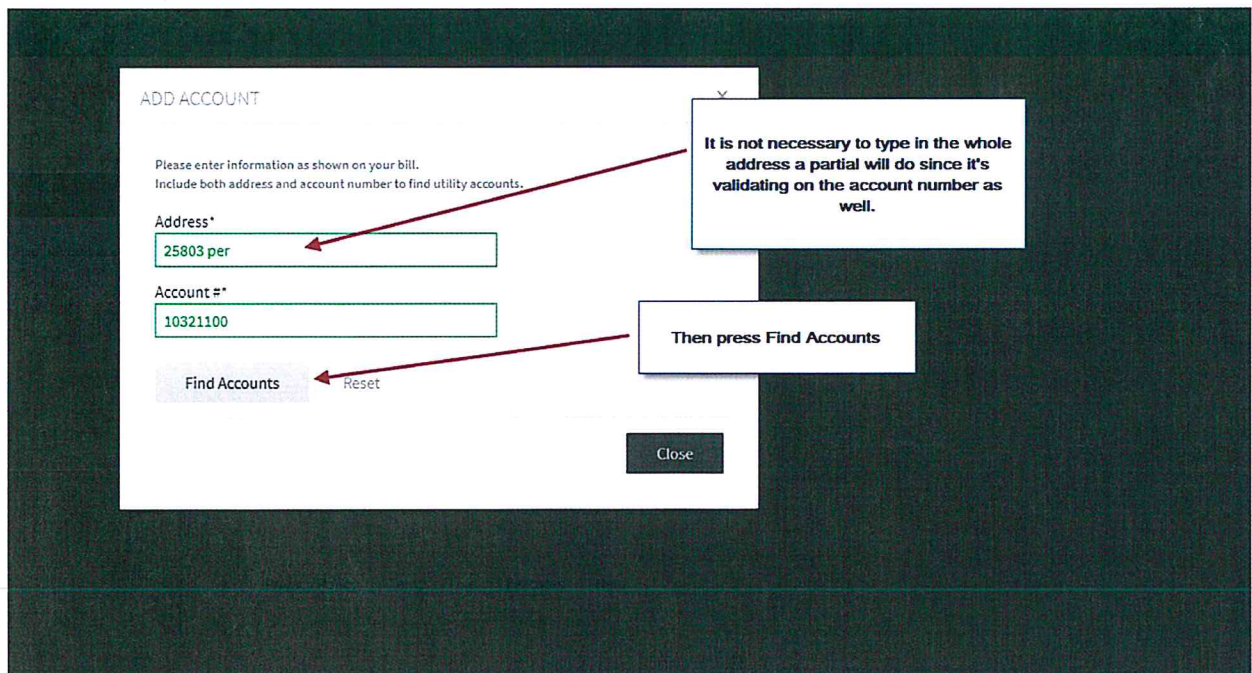

QuickPay

Step 2: To set up a Profile they must enter an email address and password, then they will need to add their account to their profile:

Step 3:

Step 4

The image shows a web interface for adding utility accounts. At the top, a modal window titled "ADD ACCOUNT" contains a form. The form has two input fields: "Address*" with the value "25803 per" and "Account #*" with the value "10321100". Below these fields are "Find Accounts" and "Reset" buttons. A section titled "Matching Accounts" displays a single entry: a checkbox, "Utility - ABC STORE #239", and "25803 PERDIDO BEACH BLVD / 10321100". Below this entry is an "Add Accounts" button. At the bottom right of the modal is a "Close" button. A white callout box on the right side of the modal contains the text: "Click the box next to the property you wish to add then press Add Accounts. You can have more than one account on your profile." Two black arrows originate from this callout box; one points to the checkbox next to the matching account entry, and the other points to the "Add Accounts" button.

ADD ACCOUNT ×

Please enter information as shown on your bill.
Include both address and account number to find utility accounts.

Address*
