Silverstone Group's Fifth Anniversary
3302 Cleveland Ave. NW, Washington DC, 20008
August 4, 2023

August marked notable real estate developer Silverstone Group's fifth anniversary event, hosted at their latest project in the tony Massachusetts Avenue Heights neighborhood. The chic event played host to an exciting mix of industry leaders from real estate, government, banking and culture, with the National Cathedral serving as the perfect backdrop. Guests enjoyed an exclusive tour of the five floor residence, an interactive scent bar by Jo Malone, and beats by a renowned Miami DJ Umber Bandi Ville. Saxophonist Edward Martin ushered guests to the rooftop at sunset to celebrate a toast by Silverstone CEO Karan Keith Agarwal. As the champagne flowed, Karan raised a glass to thank guests who had traveled from across the country and world to attend. He attributed the group's success to the "collective passion and relentless pursuit of quality that drives the team" along with the "love, support and kindness" of the guests in attendance.
