

TECTONIK AUDIO BOOKING INFORMATION

Updated 10/10/2025

QUOTING YOUR EVENT

We establish a base rate with the client, including audio equipment, engineer and helper. Inside, outside, location, travel, load in, size and type of event will play a factor in this rate.

We have multiple options to accommodate small to large events "not Acrisure Stadium"

PLEASE HAVE AS MUCH INFORMATION IN ADVANCE TO GET AN ACCURATE QUOTE

LIGHTING: with base rate/production 8 front par lights with control is included

NEED MORE LIGHTING?? multiple options are available for an additional fee. movers, bar lights, hazers, geysers and even truss can be provided. please specify in advance, when booking

WHAT WE NEED

ITINERARY IS KEY! - special events sometimes require extra special attention and longer hours. Changing the event rate. If outside, is the area covered by roof or tent? Is early setup required? Is there other activities during the event that causes hours of down time?

Does dinner require playback music? Will there be a presentation or speech that requires additional wireless microphones?

STAGE PLOT AND INPUT LISTS - yes we love them. So we can plan ahead

POWER - small/basic shows.. 3-4 seperate 20amp circuits are needed "mimimum"

For larger events a 30amp or 50amp plus multiple 20amp circuits will be needed.

NOTE- IF USING A GENERATOR, IT MUST BE AN INVERTER GENERATOR. NOTHING ELSE

GENERATOR NEEDS TO PUSH AROUND 50amps OF OUTPUT. may need more than one

***** please check with venue to ensure they have the proper power*****

PAYMENT - payments can be made in the form of cash, check, venmo or paypal.

checks can be made out to Tectonik Audio

- Tectonik Audio is a registered business in Pennsylvania and is fully insured.
Proof of insurance is available upon request.

- We can provide contracts and invoices for your event

Tectonik Audio does not operate in thunderstorms or torrential downpours
