**FINAL ANALYSIS WHAT WE KNOW AFTER FURTHER RESEARCH
EVIDENCE GATHERING since 1/6/2021**

**Evidence for conclusions Reached regarding THE FACTS is below in
Section 10A thru Section 10E -**

**Certain Forensic Timeline Conclusions based on Analysis of Section
10 Evidentiary Exhibits entered below:**

- The “Violent Breach” in fact occurred before 11:30 AM EST, and NOT during the Elector Certification Debates
- The shots were fired abt 10:45-11:45 AM EST, per a variety of Tweets sent that day. Video Live Feeds from Chambers.
- Notham sent backup, according to him, about 12:25 PM EST “after speaking to Pelosi and Schumer”. **WHERE did he send it? To the Ellipse?**
- An admittance was effected / “second breach” was witnessed about 12:53 PM EST at the front of the building, as a group of pedestrians walking were allowed in by law enforcement and followed in line between the red velvet rope restraints in place inside the bldg: this was a secondary / peaceful entry into the building.
- Pelosi’s office “breached” (reported via press tweets) at 12:55 PM EST: by an “intruder”. *(At 12:55 PM EST a photo is sent in a tweet of a person sitting at Pelosi’s desk, with a discarded flag, a cell phone, and his feet up. Several Tweets go out showing this 12:55 photo.)*
- Pence gavels in the Joint Session just after 1:00 PM EST. Pelosi was on the Dais with him, instructing on the limits to the number of member’s allowed to be on the floor of the Chamber “due to Covid”. There was zero Public notice given by Pelosi or anyone else during the Gavel-in by either Pence(1:03 PM EST) or Pelosi (1:20 PM EST) of any disturbance.
- **FACT:**

THE VIOLENCE THAT ALREADY OCCURRED pre- gaveling to order by 1:03 PM EST WAS DELIBERATELY NOT READ INTO THE CONGRESSIONAL RECORD of the 1/6/2021 JOINT-SESSION OF CONGRESS re: Certifying Electoral Votes...

- **Above failure to Record : Shows either *Failure of the VP/Speaker to record the disturbances in the Federal Record*; or wittingly pre-meditating the Record Omission by Speaker Pelosi to facilitate Trump Removal / later blame/charge Trump for “Inciting an Insurrection”. This Omission occurred **AFTER learning President Trump waited an Hour**, before beginning his Ellipse Stage address, a fact that would have exonerated him when held against a potetial Congressional Record of the Capitol violence: immediately *upon comparison of TWO each Federal Records, Pelosi’s Flashpoint Impeachment would have failed*.**
- **No speaker took the Ellipse stage between 11AM EST and 12:05 PM EST. The throng waited in place. No announcements were made until the one introducing to onlookers the President of the United States at 12:06 PM EST.**
- **Tweets went out from Dems calling for Trump to denounce the rioting, beginning before the Joint Session, and continuing until as late as 1:10 PM & beyond (See Biden tweets below, Section 10C) while the President was still 35 minutes away at the Ellipse Stage, addressing the citizens assembled before striking out as pedestrians for the march to the Capitol Bldg after 1:20 PM.**
- **President Trump spoke on the Stage at the Ellipse from 12:05 PM EST until 1:17 PM, ergo “Trump Supporters” were elsewhere engaged during the bulk of the “Siege” which began before 11-11:30 AM EST.**
- **The Ellipse stage by 1:20 PM EST still had a full throng of 1 Million+ viewers filling the space between the Washington Monument and the White House and westward, waiting to hear the President speak to them. From there to the Capitol Bldg is 35 minutes for a person walking alone.**

- The AZ Electors were contested in the Alphabet reading to the Joint Session which had begun at 1:03, , and at 1:15 Pence divided the Senate from the House for deliberations in separate chambers of the Capitol Bldg..at 1:20 PM EST Nancy Pelosi gavelled to order the separated House Chamber for deliberations. Still no public notification to the members of the “disturbance”. Per Review of multiple **Live Federal Chamber Feeds, public notification was never made** in Chambers.
- The Ellipse Stage closed at 1:20-1:30. “Trump Supporters” would not have arrived at the Capitol Building before 1:55 – 2:00 unless ALL who went Ran the full 1.5 mile distance en-masse.
- No informants/secret service/ NG/ Military/etc ever took the stage from 11:00AM EST -1:20 PM EST or after., including during the President’s addressing the people for the entirety of his speech. Ergo, **the President remained unaware of the “Siege” until after 1:20 PM** when the President had just left the stage and the crowd had not begun to disperse.
- The Chyron in the House Chamber Live Feed on 1/06/2021, carried by others including RSBN, was being manipulated with selective headlines. Possibly guidance keys for release of delayed “siege” information via tweets, media break-ins, etc.
- The House Chamber was **in recess Twice** between 2:20 and 2:40: Pelosi was not present for either recess.
- Nancy Pelosi had a remnant **stack of Access Passes** on her desk as of 12:55 PM EST.
- Once, when the audio & feed went dead after Pelosi had left the Speakers Chair Podium unannounced; Again, after the AZ Rep finished his remarks following the live-feed return from “dead Air”/recess card viewed on the Live Feed 6 minutes earlier.
- There was never a comment from either the house or senate podiums about unauthorized people being in the chambers or

even in the Capitol Building during any Chamber Live Feed at any time. Timestamped Real-time Tweets are the source evidence for ALL of those reports.

- Pelosi in the days that followed based her Impeachment drive solely on the days' events 1/06/2021.
- This drive occurred not based on investigation, but on disinformation as reported by various well-placed Media reports, outlets, professional associates of hers, and journalists either unaware of or manipulative of the facts as stated here.
- This adds to Speaker Pelosi's opportunities and motives for culpability in the events of the day.
- It would be further helpful to know the source of the Live House Chamber Feed's chyron for the period from 1:20 PM to 2:40 PM EST.
- Research further shows that the reported "5 deaths" were each the result of unrelated medical circumstances and not Siege Violence, thus it would be helpful to have proof that "Riots left 5 dead" of non-medical circumstances, or retractions from journalists and their organizations.

forcibly interrupting the GOP’s objection to the battleground states’ Electoral Counts.

D) Final afternoon recess of the House Chamber was not called until 2:40 PM, over 3 hours after violence first erupted/was responded to.

Pelosi first recognizes Steve Scalise to speak for 2 minutes on the objection to the AZ Electors. He has a whiteboard graphic of the constitution's article II section describing the Constitutional Process for selecting Electors admonishing the democrats for the SEVERAL states in which either Secretaries of State or Governors denied the Constitutional process of the states' Congressional Legislators having this responsibility singularly. Rep Scalise shows publically that in the new congress, all Republicans and zero Democrats voted for election reform legislation:

It is 1:27 PM EST, 24 minutes into the Live Feed.

By 1:14 mins into the broadcast, as the Republican Rep from AZ is speaking, while reading his presentation he calls on Madam Speaker Pelosi for order in the chamber, looks up, but she is not there..... Video began at 1:03 PM EST, time now is apx. 2PM EST.

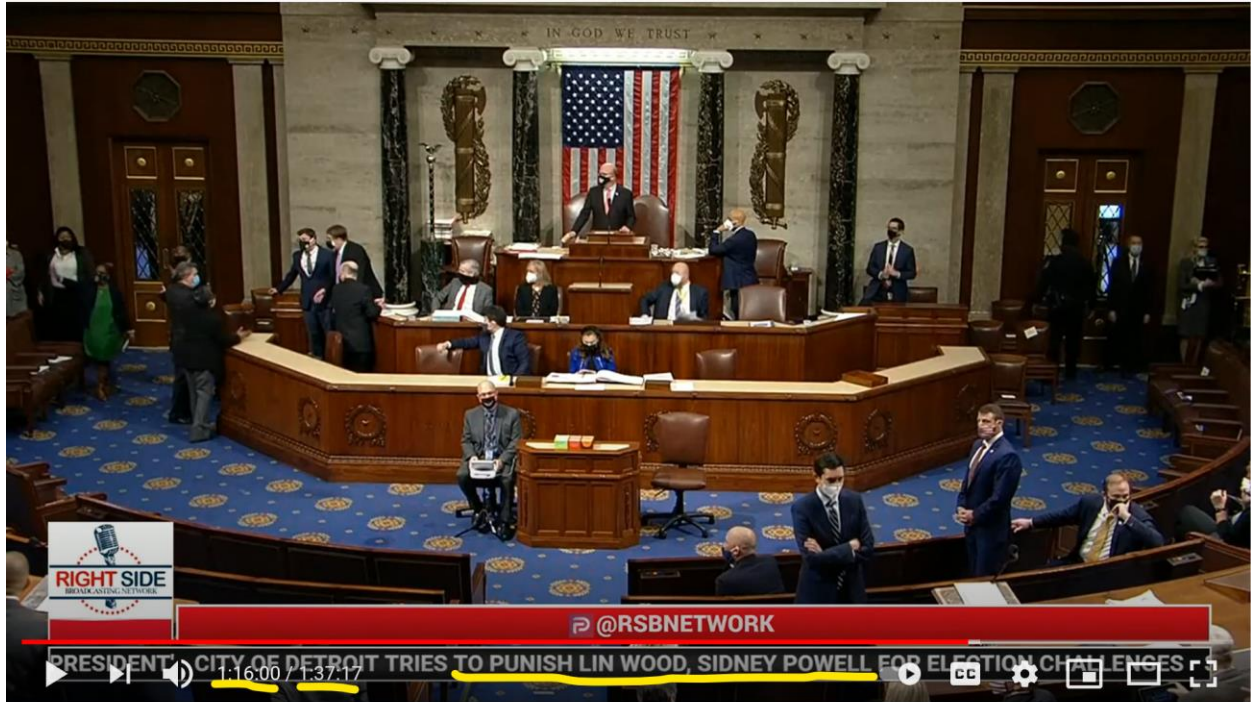

and has to correct himself. Notice the Chyron: a Sexual Abuse reference.

Fast fwd to 1:15:30 minutes into the chamber live feed/ RSBN Coverage:

Disturbance in the Gallery upstairs...

..still no Timestamp on the feed. By the 1:16:00 mark, the Chamber feed's speakers go out and RSBN's video has no sound:

...a minute later once the Chamber feed goes dark, this appears onscreen,

...and the RSBN timestamp of coverage from the Chamber feed is back. Reads: @2:20 PM. It has been exactly one hour since 1:20 PM EST when Pelosi first gavelled in the separated House of Representatives session to hear Electoral objections. At 1:17:20 into the live feed, there are 20 minutes left until the feed ends at 1:37:17.

The screen is in freeze mode above, the feed clock continues to run toward the 1:37:17 finish.

BUT ... 6 mins later at 2:26 PM EST pnm the clock, the Chamber feed RESTARTS AGAIN... as shown in the RSBN Broadcast video freeze-frame below of the Chamber Feed from the House:

This is one hour and 23 minutes into the Capitol/House Chamber feed... on the RSBN video....the AZ Republican is there at his podium in the re-start/replay... feed seems to be restarting from when he first notices that Madam Speaker Pelosi is not there and is asking for order in the chamber.

He finishes his remarks, and is told from the chair, "Without objection the house is going to go back into recess" this occurs at 2:30 on the House Feed timestamp:

On the left of this capture, a number of those present point at a

different area than in the frame above. There are still 11 minutes to go in the feed (1:26:51-1:37:17) The video from the Live Feed at the Capitol from the House Chamber ends... the Timestamp reads 2:40 PM EST.

So the Live Feed began at 1:03 PM, chambers split was accomplished uneventfully at 1:20 PM. BLM Park clash was reported at 2:16 pm, By 2:40 PM the House was “again” in recess.

This (below)is a shot of the Ellipse: showing the mass of rally-goers assembled To hear President Trump speak to the citizens for possibly the Last public rally to be held for them: a map below shows it is a 35 minute walk to the Capitol Bldg. without contending with a throng several times larger than a normal event:

Going from the Rally, via BLM Park, to the Capitol Building, is almost An hour walk..see the map below. The Rally-Goers number an estimated One million people. By numbers and timing, it is already unlikely that Pedestrians involved in the BLM clash had either originated at the “Save America” Rally; or went on from there to the Capitol “siege”, Having been inspired by listening to President Trump’s hour long address to these American citizens, as Pelosi contends.

Section 10B VIDEO 2 – Ch3 evidence live feed: Ellipse Stage Jan 6 2021

The below live feed can be found at:

January 6, 2021: President Trump is speaking at the 'Save America' rally. Hundreds of people were spotted walking towards the White House Wednesday morning ahead of protests in support of President Trump and his anticipated speech at the Save America Rally on the Ellipse at 11 a.m.

Notice there is no mention of “trump supporters” and that the Video description for this live feed tells the viewer that President Trump’s speech was to be at 11AM EST. text description by Channel 3 above reading from between “Hundreds of people” and “in support of” may have been added after the live feed: Unknown.

This Ch 3 video (snips below) shows irrefutable evidence that President Trump began his address long after the expected / advertised / published 11AM starting time which the media, journalists, Pelosi & unknown "Siege" planners had expected Wed 1/6.

CH 3 Live Feed – 1/06/2021

from The Ellipse Stage in Washington DC where the Save America Rally was held.

This capture below at 3:48 begins as Rudy Giuliani, speaking just before Trump is scheduled, has left the stage after speaking to the crowd of rally-goers.

(See more of actual crowd photos below)

NEXT:

See below screen capture of this video....

NOTICE: The Feed has been running for over an hour,
(1:01 = 1 hour of feed has run...one hour out of the 2:20 total live feed run time)
At 1:01 into the feed, Trump has not yet taken the stage, despite the video stating he would begin at noon...see above caption for this channel.
ALSO note: there are ZERO Trump flags in this crowd shot. NONE.

BELOW: a minute later into the feed, at almost 1:03: President Trump has been announced on the loud-speaker system, and has taken the Ellipse stage....

This second video feed has run for more than an hour, the viewing camera has zoomed in.

It's been an hour since Giuliani left the stage. During the interim, there were no additional speakers at the mike. We can assume the feed started a few minutes before the advertized 11:00 AM EST start of President Trump's address. Thus the

below feed time suggests the President takes the stage at an estimated 12:05 PM EST. BELOW: Camera zooms in even closer, trump waves during a lengthy ovation:

According to several eyewitness attendees, President Trump begins speaking at about 12:05 PM EST, corroborating the above estimate. BELOW: the video feed has been live

for an hour by the video-feed timestamp 2:06:07 below, the President has continued speaking uninterrupted for an hour. The Time in DC is abt 1:05 PM EST.

So, an hour into the Live feed, at the 2:06:07 live-feed mark, President Trump is still busy speaking to the American People: the Live Feed camera is still Zoomed in. The time is appx 12:05 PM EST in this above shot of his speech. ***This shot is replicated in the CSPAN video of the Senate Chamber live feed,*** (see Sec 10D, re Vid 3 below)

BELOW: 4 minutes later at 2:09 PM EST, the live chat from the video replay reports the break-in at the Capitol Building 35 minutes away, of which the President himself is not informed...President Trump continues talking uninterrupted.

Thus, we learn the public viewing video 2 were informed of “The Siege” at 1:10 PM. The President is clearly in the midst of addressing the citizens still when the news is fed to this viewing public. (NOTE: There has been no mention of BLM plaza.)

7 mins later (see below screen capture of the feed from Video2)the speech concludes.

BELOW:

President Trump spoke for another Ten full minutes, until the 2:16 timestamp on the feed:

he paces the stage waving to the crowd:

At the end of the President's address, the live feed had been running 2:16:49 – (President Trump began at about 12:05 PM EST and spoke/remained on the Ellipse stage until 1:15 PM EST, for over an hour. When the video ended at 1:15 PM EST, the 2:20 mark in the feed counter, two hours and 20 minutes into the feed, the crowd was still in place) remember the rally-goers' location in relation to the Capitol Building:

The below shot from Video 2 (the CH 3 Video) at 2:18 into the feed, or Two minutes later into the feed than the above shot: the camera back-zooms / scans toward Pennsylvania ave, the crowd is still unmoving toward the Capitol Building:

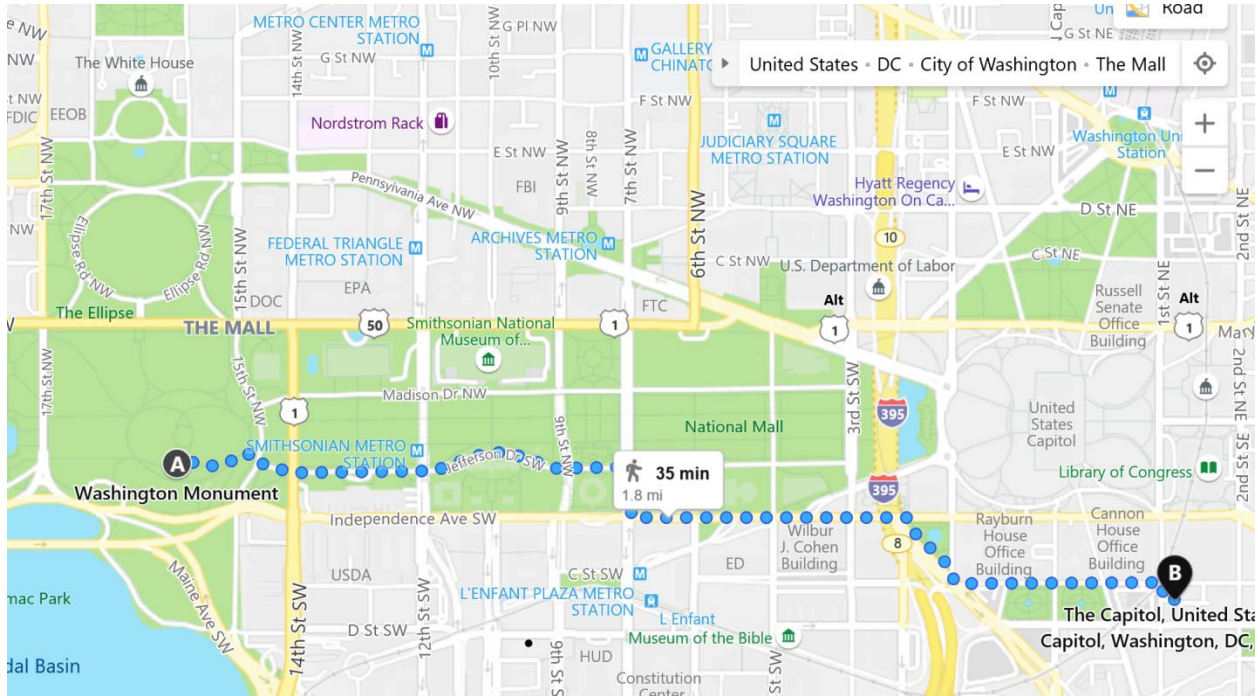

NOTE: At the 2:20 minute feed time marker video 2 ends. It is estimated to be about **1:20 PM EST** at the 2:20 marker when the video ends, based on reports that the President arrived to speak well after his announced 11 AM start, much later than expected, and did not begin speaking until at least 5 minutes after 12:00 PM EST.

Below: The crowd is still in place as the video 2 ends:

MAP below Shows it is At least a 35 mins walk, without a crowd, from the Washington Monument to the Capitol Bldg, it can be assumed other routes from the Ellipse to the Capitol Building would result in a similar ***individual walking time*** calculation. The rally Feed from Video 2 closed at 1:20 PM EST. A single individual leaving the ellipse at the end of the President's address would arrive at the Capitol Building at about 2 pm.

Tweets From The U.S. Capitol During The Attempted Coup Are A Frightening Read

BY [RHYMA CASTILLO](#) | JAN. 6, 2021 | **f**

There's no other word but terrifying. On Jan. 6, rioters stormed the U.S. Capitol Building in Washington D.C. after President Donald Trump delivered a rally speech where he claimed, once again without evidence, that the November 2020 election was stolen from him. As police failed to hold back crowds, some Trump supporters forced their way into the building. [These tweets from the U.S. Capitol during the attempted coup](#) are a frightening read, and show the disturbing perspective on the ground.

While information is still coming out, the initial details from those present are frightening. Around 1 p.m. ET, rioters reportedly entered the Capitol and forced their way into the chambers where legislators were confirming the election of President-elect Joe Biden. Legislators and those inside the Capitol were reportedly instructed to shelter in place, per multiple accounts. The White House did not immediately respond to Elite Daily's request for comment regarding the situation and President Trump's influence on events.

Terrifying [photos and videos showed glimpses of the events](#) inside the Capitol building, including security with guns pointed at rioters and legislators and [congressional staff crouching beneath chairs and desks](#) in the legislative chambers. Many members of Congress and those present tweeted out what they were seeing.

C-SPAN video of the Senate Chamber LIVE FEED / COVERAGE:

Different entirely than the one referenced above (3:44 min feed) purportedly for the same time/session. The BELOW cut is a 27:46 long feed. WATCH HERE:

<https://www.c-span.org/video/?507698-1/senate-session>

This cut omits the Clerk entry about the Secretary of the Senate Julie A. Adams – & see section 10E Below)

At first, CSpan is on the Live Senate Chamber Feed, announcing off-camera the impending walk by Senators to the House Chamber to join the Representatives for the Joint Session of Congress: this capture below is from @17: 31 on the CSPAN Live Chamber Feed from the Senate Capitol Bldg Chamber.

Suddenly, 14 seconds later, @17:47 the CSPAN live feed picks up President Trump mid-address at the Save America rally which began at 12:05 on the stage built at the Ellipse in front of the White House: this CSPAN video is INACCURATE despite the “live” Label.

(note: is this clip above when/where/how CSPAN spliced in the above 3:30 video with only the Chaplain and the gavel-out of the pre-joint Senate session?)

In Reality, the joint session was gavelled in just after 1:00 PM EST in the House Chamber in the Capitol Building. **In Reality**, President Trump's address at the Ellipse stage began at about 12:05 PM and continued until just before 1:20 PM when the Save America rally concluded. **In Reality**, after 15 minutes or so from Pence starting the Joint Session by gavel @ 1:03 PM EST, the split session was announced & the House Chamber, without senators, was gavelled to order by Speaker Pelosi @ 1:20 PM EST per the House Chamber Live Feed from the Capitol Building. CSPAN has their video marked "Live" however.

4 minutes later in the feed @21:30 a split screen appears just before President Trump's address disappears and the Senate announces the Senate is to proceed to the House Chamber for the joint session to begin.:

The CSPAN video returns to single screen @ 21.41 minutes into their feed, labeled “LIVE”, invokes Audio, and shows Lankford calling on the Senate to join the house:

Why are there two versions of the Chaplain then the Senate chamber directed to go join the House chamber?

Where re the video's of the Jan 6th SENATE CHAMBER Live Feed of disturbances between 1:20 PM EST and 2:40PM EST as there are for the House?

Who feeds the Chyron to the House Live Video Feeds?

NOTE: The Pelosi DESK photo has SAME TWEET STAMP as the "Intruder" photo – how was this photo taken over the positioning of the Intruder in the Lizza photo-tweet sent at the same time? Did the "intruder" take it? Was it taken earlier than 12:55 on the "intruder phone" and it came to be possessed by Lizza and Alexis? Did someone else take it after the fact, making these tweets NON-concurrent with the Intruder photo, yet tweets were later coordinated between Lizza and Alexis?? - **An admittance was effected / “second breach” was witnessed about 12:53 PM EST at the front of the building, as a group of pedestrians walking were allowed in by law enforcement and followed in line between the red velvet rope restraints in place inside the bldg: this was a secondary / peaceful entry into the building.**
- **Pelosi’s office “breached” reported via press tweets at 12:55 PM EST: by an “intruder”.(At 12:55 PM EST a photo is sent in a tweet of a person sitting at Pelosi’s desk, with a discarded flag, a cell phone, and his feet up. Several Tweets go out showing this 12:55 photo.)**
- **Pence gavels in the Joint Session just after 1:00 PM EST. Pelosi was on the Dais with him, instructing on the limits to the number of member’s allowed to be on the floor of the Chamber “due to Covid”. There was zero Public notice given by Pelosi or anyone else during the Gavel-in by either Pence(1:03 PM EST) or Pelosi (1:20 PM EST) of any disturbance.**
- **Tweets went out from Dems calling for Trump to denounce the rioting, beginning before the Joint Session, and continuing until as late as 1:10 PM while the President was still 35 minutes away at the Ellipse Stage, addressing the citizens assembled & continuing to listen to him speaking to them.**
- **No speaker took the Ellipse stage between 11AM EST and 12:05 PM EST. The throng waited in place. No announcements were**

made until the one introducing to onlookers the President of the United States.

- President Trump spoke on the Stage at the Ellipse from 12:05 PM EST until 1:17 PM, ergo “Trump Supporters” were elsewhere engaged during the bulk of the “Siege”.
- The Ellipse stage by 1:20 PM EST still had a full throng of 1 Million+ viewers filling the space between the Washington Monument and the White House and westward, waiting to hear the President speak to them. From there to the Capitol Bldg is 35 minutes for a person walking alone.
- The AZ Electors were contested in the Alphabet reading to the Joint Session which had begun at 1:03, , and at 1:15 Pence divided the Senate from the House for deliberations in separate chambers of the Capitol Bldg..at 1:20 PM EST Nancy Pelosi gavelled to order the separated House Chamber for deliberations. Still no public notification to the members of the “disturbance”.
- The Ellipse Stage closed at 1:20-1:30 PM EST. “Trump Supporters” would not have arrived at the Capitol Building before 1:55 – 2:00 unless ALL who went Ran the full 1.5 mile distance.
- No informants/secret service/ NG/ Military/etc ever took the stage from 11:00AM EST -1:20 PM EST or after., including during the President’s addressing the people for the entirety of his speech. Ergo, the president remained unaware of the “Siege” until after 1:20 PM when the President had just left the stage and the crowd had not begun to disperse.
- The Chyron in the House Chamber Live Feed on 1/06/2021, carried by others including RSNB, was being manipulated with selective headlines.
- The House Chamber was in recess Twice between 2:20 and 2:40:

- Nancy Pelosi had a remnant stack of Access Passes on her desk as of 12:55 PM EST.
- Once, when the audio & feed went dead after Pelosi had left the Speakers Chair Podium unannounced; Again, after the AZ Rep finished his remarks following the live-feed return from “dead Air”/recess card viewed on the Live Feed 6 minutes earlier.
- There was never a comment from either the house or senate podiums about unauthorized people being in the chambers or even in the Capitol Building during any Chamber Live Feed at any time. Timestamped Real-time Tweets are the source evidence for ALL of those reports.
- Pelosi in the days that followed based her Impeachment drive solely on the days’ events 1/06/2021.
- This drive occurred not based on investigation, but on disinformation as reported by various well-placed Media reports, outlets, professional associates of hers, and journalists either unaware of or manipulative of the facts as stated here.
- This adds to Speaker Pelosi’s opportunities and motives for culpability in the events of the day.
- It would be further helpful to know the source of the Live House Chamber Feed’s chyron for the period from 1:20 PM to 2:40 PM EST.
- Research further shows that the reported “5 deaths” were each the result of unrelated medical circumstances and not Siege Violence, thus it would be helpful to have proof that “Riots left 5 dead” of non-medical circumstances, or retractions from journalists and their organizations.

FORENSIC CONCLUSIONS ADDENDUM:

Re: TWITTER PURGE AFTER THE “TRUMP RIOTS” / “TRUMP-TERRORIST SIEGE OF THE CAPITOL BLDG”

- The Jan 8 Twitter Platform subsequent “purge” was coordinated and targeted at accounts that:
 - ✓ A.) were relaying **eyewitness accounts** of the Ellipse Rally & riot aftermath in real time.
 - ✓ B.) sharing info on the “Save America March” to the Capitol vs BLM Park, “Siege”, Etc.,
 - ✓ C.) Discussing the Ellipse Rally / Presidents Speech was Delayed over an hour from 12 PM EST,
 - ✓ D.) Proved via photos & Videos the Peaceful Nature of the Real-time Trump Supporters entering the Capitol bldg. far later than any “breach”, & walked thru the front door peacefully admitted by law enforcement.
 - ✓ E.) carried on Discussions of events continuing during the week, before and after 1/6/21 Joint Session, via “Stop the Steal” hash-tags: discussions which threatened to expose the coordination between Media and Pelosi/Dem Leadership to conflate the “Capitol Breach”, the “Capitol Riots”, the “Trump Terrorists Siege” etc.
 - ✓ F.) would have exposed via Public Twitter remarks the false Pelosi Impeachment grounds.
- The current False Narrative about the Real Donald Trump account suspension & Twitter Purge is that Twitter “is silencing conservative voices”

That’s it, that’s all I know.
