# SYMPOSIUM INFORMATION

## OVERVIEW

Led by our renowned multi-disciplinary Faculty, the **Cardiology Fiesta 2018 Symposium** will utilize an interactive format, focused on improving patient care to provide timely updates of scientific data, new technology and guidelines. Through topical debates, case-based presentations and interactive audience modalities, Cardiology Fiesta will provide the attendee with updates on the rapidly evolving technology and cutting-edge therapy. By illustrating state-of-the-art evidence and best clinical practices as they apply to real world case patient scenario, attendees will gain the understanding of their role in providing care not only in their practice today but in the future as well.

By providing up-to-date topical reviews we will inform the attendee about how to achieve the best outcomes. This patient focused process will allow the attendee to weigh the risk versus benefits of therapeutic choices. The inclusion of precision medicine which will provide attendees with increasingly precise information about the molecular mechanism by which a person has developed cardiovascular diseases and facilitate focused approaches to optimize treatments to allow patients to deal with their personal disease. Taped cases will provide content focused presentations of how innovative procedures are performed along with the clinical decision process to decide between therapeutic options making clinical care choices. Cardiology Fiesta will also offer focused sessions for Fellows and Nurses.

## OBJECTIVES

**Upon completion of this CME activity, participants should be able to:**

- Review the new appropriate use guidelines and emerging concepts in treating specific patient populations who have palpitations or need anticoagulation.
- Evaluate the emerging information regarding the human genotype and cardiovascular disease.
- Contrast and compare emerging non statin treatment strategies for reducing atherosclerosis.
- Review optimal treatment strategies for congestive heart failure.
- Identify interventional techniques for treatment of atrial fibrillation and decreasing the risk of systemic embolization including medication and devices.
- Integrate the roles of transcatheter and surgical therapies in patients with complex valvular heart disease.
- Recognize the strategies for treating STEMI including improving return of spontaneous circulation.
- Describe treatment strategies for the management of Peripheral Vascular Disease.
- Understand the current indications and outcomes of Endovascular Therapies of thoracic and abdominal aorta disease.
- Review the emerging indications for treating pulmonary hypertension.

## TARGET AUDIENCE

**The Cardiology Fiesta 2018 Symposium has been designed to meet the educational needs of:**

- Interventional Cardiologists who wish to learn about new emerging interventional techniques.
- Non-Invasive Cardiologists and Physicians who help diagnose and manage patients with complex cardiovascular conditions and participate in the longitudinal care.
- Physicians, including Anesthesiologists who assist with procedural care and OB-GYN practitioners who focus on care for women with heart disease.
- Nurses, Nurse Practitioners, Intensive Care Nurses and Catheterization Laboratory Personnel who wish to learn more about patient evaluation and care.
- General Practice Physicians who wish to improve their quality of care for patients with cardiovascular disease.

## INDUSTRY SUPPORT

In the past, Cardiology Fiesta has been supported in part through exhibit fees and educational grants from medical device and pharmaceutical industries. A complete list of contributors and appropriate acknowledgement will be given to all supporters at the meeting.

## CONTINUING MEDICAL EDUCATION

The UT Health San Antonio Joe R. & Teresa Lozano Long School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Joe R. & Teresa Lozano Long School of Medicine designates this live activity for a maximum of 16.25 *AMA PRA Category 1 Credits*<sup>™</sup>. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

American Academy of Physician Assistants (AAPA), American Academy of Nurse Practitioners (AANP) and the American Nurses Credentialing Center (ANCC) accepts certificates of attendance for educational activities certified for *AMA PRA Category 1 Credit*<sup>™</sup> from organizations accredited by the ACCME.

Healthcare professionals receiving a certificate of attendance should consult with their licensing board for information on applicability and acceptance.

## ABIM MOC II RECOGNITION

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 16.25 MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

## NURSING ACCREDITATION

This activity has been submitted to the Texas Nurses Association for approval to award contact hours. The Texas Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

## REGISTRATION INFORMATION

The registration fee for this CME activity is \$400.00 for physicians who are members of SCAI. The fee for physicians who are non-members of SCAI is \$475.00. A reduced registration fee of \$250.00 is available for Residents, Nurses, Technicians, Physician Assistants, Health Care Professionals, and Full-Time Students if application is accompanied by a statement from applicant's Department Head regarding status. Registration fees are waived for Fellows-in-Training. The Full Symposium Registration Fee includes attendance at Friday, Saturday & Sunday sessions, access to online course materials, continental breakfasts, refreshment breaks, and lunches.

*All registration fees will be discounted by 25% prior to September 1st.*

To register, please complete and mail or fax the attached registration form, or visit our website at [www.cardiologyfiesta.com](http://www.cardiologyfiesta.com) to register online. If you have any questions regarding the program, please call the symposium coordinator, Gaffney Events at (425) 844-9019.

## ONLINE RESERVATIONS

To book your room online visit [www.cardiologyfiesta.com](http://www.cardiologyfiesta.com)

## CANCELLATIONS

A full refund will be given provided that written notification of your intent to cancel is received three weeks prior to the opening date of the program. A processing fee of \$75.00 will be charged for all cancellations received after this date. The cost of the meal functions will also be deducted from the refund unless the cancellation is received 48 hours in advance of the program. Fees will not be refunded for no-shows.

In the unlikely event that the program is cancelled, The University of Texas Health Science Center is responsible only for full refund of the registration fee, and not for transportation or hotel accommodations.

## Course Description

The goal of the 2018 Cardiology Fiesta Nursing Symposium is to build skill sets that will foster and improve interdisciplinary management of high risk cardiovascular populations as they transition across health care settings. Participants will be exposed to a foundation they can utilize to successfully treat and evaluate at risk populations, exploring health promotion strategies applicable in the real world.
