

# I explore unlimited possibilities

## **I explore unlimited possibilities.**

I am ready to explore this brave new world.

I am happy that I have cleared the path of all negativity. It is refreshing to know that the sky is the limit now. I am ready to explore the stars!

For inspiration, I need only look at the night sky. I learn about astronomy and discover the constellations.

**By expanding my mind, I realize that there are no limits.**

I love to watch documentaries on what they are discovering in space. I marvel at the fact that we have had a human on the moon. I think about what else is possible.

I love to explore the unlimited possibilities of the mind. I read books on the matter. I take classes about what is being discovered in quantum physics.

I am grateful to be plugged into a think tank of positive possibilities. **I have now learned that it only takes 14 seconds of brainstorming on positive possibilities to**

## **create and manifest your dreams!**

I am increasing my capacity to accept new ideas. I open my mind completely to accept the unknown. I am safe to learn new things.

As I continue to open my mind to new ideas, I gain confidence in my ability to manifest my dreams.

**Today, I give myself permission to believe in myself.** My eyes light up at the possibilities that I can create in the future.

## **Self-Reflection Questions:**

1. What could I create if I was completely debt-free?
2. What would I do if I didn't have to work for a living?
3. How would I use my time if there were no obligations on me?
