Dry Pea and Lentil Report

Andrew Fontaine
Spokane Seed Company

An aerial photograph of a vast agricultural landscape. The foreground shows a dense green field with visible furrows. Beyond it, rolling hills are covered in a patchwork of green and golden-yellow fields, likely representing different crops or stages of growth. A few small farm buildings and clusters of trees are scattered across the hills. The background shows more distant hills under a clear, light blue sky.

U.S. Dry Peas

US Dry Pea Planted Acres and Production

2025 Planted Acres: 1,113,435: 2024 Production: 795,558 MT

2023 Acres: 999,000 2024 Acres: 1,033,000

U.S. Lentils

US Lentil Planted Acres and Production

2025 Lentil Planted Acres: 1,044,144; 2024 Production MT: 415,476
