

## Microblading / Permanent Make Up / Before Treatment / Consent Form

**Please do not book your appointment 2 weeks prior and 3 weeks post covid19 vaccine.**

### WHAT TO EXPECT IN THE HEALING PROCESS FOR ALL PROCEDURES?

While your skin heals, be prepared for the colour intensity of your procedure to be significantly Larger, Sharper, Brighter or Darker than what is expected for the outcome. This is a normal and expected result of the application and healing process. The healing process will take several days to complete, depending on how quickly the outer layer of your skin exfoliates and new skin regrows to take its place. \_\_\_\_\_ Initial

Colour will appear darker and bolder after the procedure. Your colour will oxidize and darken over the first few days. The colour CAN AND WILL fade/soften anywhere from 10% to 50% or more. \_\_\_\_\_ Initial

Some residual swelling is normal for ALL procedures. Swelling and healing time is individualised. It can be minimal on clients. Every client is different. Blanching (whiteness around the treatment area) and redness is to be expected and can vary from client to client. It can last a few hours to a few days. \_\_\_\_\_ Initial

The area may appear uneven, dry, itchy, tender, red & irritated. This is all 100% normal. DO NOT PICK. These symptoms will dissipate each day and vary on an individual basis. \_\_\_\_\_ Initial

Picking can lift colour and pigment from the treated area resulting in unevenness and blank spots. Let the brows flake off naturally. \_\_\_\_\_ Initial

Your brows may not exfoliate evenly. Please do not pick at the scabs. During the exfoliation process your colour may look weak, orangey, pinkish, or grey. This will not be your result. It takes a full 4 weeks or more for your true colour to surface. Please be patient and wait until you are fully healed before you critique your eyebrows. Any refinements can be addressed at a follow up visit. \_\_\_\_\_ Initial

Healing is specific to each client. It is important to realize that you will need a colour boost every year to maintain its fresh natural appearance. Fading WILL happen after each procedure. We do not have control over your bodies healing process. \_\_\_\_\_ Initial

Everyone's genetics, physiological make up, and lifestyle will affect the treatment in various unique ways. You may need still to powder and/or pencil your eyebrows even after the healed results. This is an enhancement to your natural brows.... not a permanent one. \_\_\_\_\_Initial

If you are out in the sun a lot, have oily skin, use anti-aging creams, Retin-A /retinol products, acidic cleansers, natural elements, regular chemical peels, or exercise frequently, your permanent makeup WILL fade prematurely. The better you take care of the treated area and follow the provided aftercare, the longer it will last. \_\_\_\_\_Initial

Remember, that no two sides of the face are the same or perfectly symmetrical. While trying to obtain perfect symmetry is our goal note that nothing is PERFECT. \_\_\_\_\_Initial

When you leave, your shaded eyebrows and/or your hair strokes are intact. Remember your technician will do their best to help you heal properly but lifestyle, genetics, age, and certain environmental factors can/will contribute to the retention of your eyebrows. \_\_\_\_\_Initial

It is quite common to have areas fade more so than others. This is part of the healing process and it may be treated at the recommended touch up appointment. Previously done eyebrows may take 1-3 treatments to achieve the desired result. Scar tissue in the brow area of eyebrows done multiple times WILL require additional procedures and fees will apply. \_\_\_\_\_Initial

Permanent Makeup is an art, NOT a science. All clients' results will vary. The use of makeup such as a brow pencil or powder may still be needed. This is not a "no maintenance" treatment but a "low maintenance" one. \_\_\_\_\_Initial

Follow up visits should be done within 4-6 weeks after your initial treatment. Any additional touch ups within 6 - 12 months are an additional charge. WE DO NOT DO FREE TOUCH UP's after your FOLLOW UP visit but will price accordingly to your individual needs. \_\_\_\_\_Initial

I have read and understood the risks to this procedure. I am happy to go ahead with this treatment.
