A slightly-used Miracle

Lilly Garritson and Sarah Cobourn

Lilly and Sarah

Dear Mr. Redick,

My name is Lilly Garritson and my project partner is Sarah Cobourn. We are both 8th graders at Spartanburg Day School in Spartanburg, South Carolina. In history class we are working on a project called 20 Time. This project requires us to spend 20 percent of our time on a project of our choice. We work on it every Friday.

The name of our project is A Slightly-Used Miracle. We are planning on writing a nine chapter book about a teenage girl named Ansley Eve Maxwell. She is 16 and goes to Clearview High School in Miami. Her two friends are Bailey and Cara. They learn what high school has to offer, and the importance of friendship, loss, and communication. She learns that life is a wild ride, and sometimes it can take a miracle.

For our project we need a mentor. Our classmate Molly Jones recommended you. We were hoping that you would consider being our mentor. What you have to do as a mentor is meet with us, either by email or facetime a couple of times between now and March. We have to reflect on our progress in bi-weekly blog posts. Our blog addresses are at the bottom of the page, and as our mentor, we would love for you to give us your input and advice. We both understand if you cannot be our mentor, but we are really looking forward to working with you if you are able. Thank you so much.

Sincerely,
Sarah Cobourn and Lilly Garritson

My Story

My name is Finn Reid. At the time of making this, I'm 14 years old and attend the Spartanburg Day School (SDS). I started making this website in early January of 2019. I love to read, hang out with my friends, and play soccer. I struggled with math a lot in school, especially Algebra, so I decided to create an Algebra website to help myself, my friends, and future generations at my school. I hope my website can help you learn as I did with many others.

My project was inspired by a school project called 30 Time. It is where you spend 30% of your time in class doing basically a passion project that helps the community. It is a year-long project that we do in 8th grade. This year, I chose to create this website. I hope that anyone who uses it learns. One thing that I've learned from 30 Time, is that failure is not the end. This was not the first 30 Time project that I've done. In the past, I've had many failures with 30 Time, but persistence is key. That is one lesson I hope you take away from my website.

Contact

Here at Math Aid, we strive to make sure everything is in order and working.

If however something has not been done to your satisfaction, please fill out this form and let me know.

Please Don't Stop The Music

The screenshot shows a GoFundMe campaign page. At the top, there's a navigation bar with 'gofundme', a search icon, and a 'Dashboard' link. Below this, there are 'Share' and 'Tweet' buttons. The main image is a wooden ukulele. To the right of the image, there's a progress bar showing '\$355 of \$250 goal' and a note 'Raised by 9 people in 2 months'. Below the progress bar, there's a 'No Longer Accepting Donations' button and a 'Share on Facebook' button. The campaign was created on January 23, 2018, by Rebecca Haddad on behalf of Mary Haddad, who is listed as 'Medical' and from 'SPARTANBURG, SC'. There are sections for 'Top Supporters' and 'First Donor', with George Haddad listed as the first donor for \$25. At the bottom, there are 'Share' and 'Tweet' buttons, and a 'Story' section with 'Updates'.
