

SPELLBOUND®

Reimagining patient experience

Quick Distract Cards™

Using the SpellBound app, hold a mobile device (tablet or smartphone) up to these cards and see an **immersive**, 3D world revealed with interactions, sounds and animations that will keep patients **distracted** and **entertained** for up to twenty minutes at a time.

- Postcard or placemat sizes
- Printed on plastic or paper
- Android or iOS

Used by child life specialists to **distract** during blood draws, sutures, and other short procedures. Used by occupational and physical therapists for motor skill **development** and **rehabilitation**.

SPELLBOUND®
Reimagining patient experience.
