

BIA Support Packages

Why Purchase a Support Package

Clients expect metrics. Whether output on a bike, heart rate intensity or body changes, they no longer accept calories burned on a treadmill as an acceptable measure of performance.

Bio Impedance Analysis is an accurate, cost effective way to provide valuable metrics on body changes to clients. **But simply purchasing unit won't make the changes you are looking for.**

Getting a Return on Your Investment

Let the experts at Spartan Wellness Technology help you make the most of your investment. The most profitable ROI's occur when BIA owners:

- TRAIN staff to understand every metric on the BIA device
- TRAIN staff to explain the information in a way that makes sense to the client
- EDUCATE staff on how to recommend lifestyle changes, based on the results
- Train your staff to UP-SELL based on results
- Continue to educate and RETRAIN staff
- Properly MARKET your machine to both members and prospects
- Determine a financial model that secures ongoing revenue generation
- Set sales expectations and goals for your staff that achieves your goals
- Track, evaluate and re-evaluate your goals strategically
