Technique Class

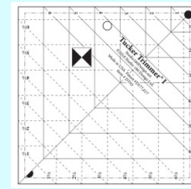

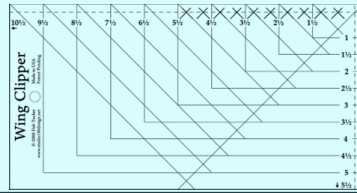

Ruler Techniques: Tucker Trimmer and Wing Clipper

Monday, October 20, 5p – 7:30p

Instructor: Mary

- The Wing Clipper is a must have tool if you are making Flying Geese units for your quilt. This tool, and the associated Fast Flying Geese construction technique, allow you to make four finished units from five squares. The best part is that each unit is constructed slightly oversized so each can be trimmed to a perfect size.
- The Tucker Trimmer I tool was designed to help quilter's quickly and easily trim down units that are made with triangles: half square triangle squares, quarter square triangle squares (hourglass units), and combinations of half square and quarter square triangle squares (combination units). The ruler guide lines and unit seam lines help to quickly locate the exact center of pieced units. This makes trim down easy, precise, and perfect every time

Class: \$25.00 (includes kit)
