## Small Items with Huge Impacts (We highly recommend!)

### Perfect Scissors by Karen Kay Buckley

We love the way a serrated blade cuts through fabric. This special blade will pull the fabric into the scissors, rather than pulling it away like traditional scissors. We carry this scissors which features a cushioned handle, ideal for right-or left-handed people, blades sharp to the very tip, serrated blade, protective cover and are lightweight and comfortable.

7 1/2" Purple      6" Blue      4" Green

### Multi-Purpose Scissors by Karen Kay Buckley

These are great for cutting templates (freezer paper, Templar), fabric and fabric with fusible stabilizers. The blades are stainless steel, handles have the same soft, ergonomic grip as the Perfect Scissors. They cut sharp to the point and come with a plastic protective cover. Great for both right and left hand cutting.

7 1/2" Pink      5" Orange

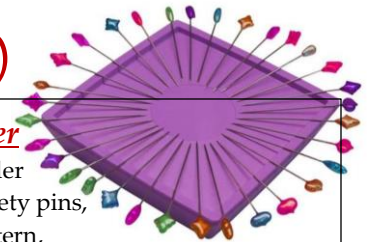

### Curved Scissors by Karen Kay Buckley

What is the benefit of the curved tip you might ask? It allows you to clip close to your fabric without cutting into your quilt top. These scissors are fabulous for clipping threads for machine quilting, machine applique and machine embroidery. They have a serrated blade, a comfortable handle, and a right or left hander can use them with ease.

Curved Red

### Zirkel Magnetic Pin Holder

This highly recommended pin holder grabs straight pins (paper clips, safety pins, etc) to the edge in a fanned out pattern, placing them in a ready to pick up position. It's strong magnetic field holds items tightly, ready for you when you need them. Have you ever dropped your pins all over the floor? Well, this magnet picks them all up like a breeze! And . . . it comes in fun colors!!

### Seam Ripper by Gypsy Quilter

This seam ripper with an innovative plastic tip grabs and removes threads. Simply use the seam ripper to remove threads, then replace cap and use plastic tip to "erase" the loose threads and whisk them neatly away! And . . . it comes in fun colors!!

### Hemline Tulip Pin Cushion

This adorable pin cushion with suction cup is a little work horse. It attaches to any flat surface, but is especially useful attached to your sewing machine! It sticks to the side, front, top, whatever. The thick foam cushion is great for short or long pins. And . . . it comes in all sorts of fun colors!!

# Classes

No need to reiterate the ordeal we experienced the past year and a half. With that said, our staff worked exceptionally hard during the pandemic and again during our re-opening. Now they need a rest!

We are postponing all classes until September. This gives our gals a chance to enjoy the summer and spend time with loved ones they have been missing.

We hope to see you in the Fall for our classes. As always, our class offerings will include a variety of learning.

Enjoy your summer, but keep those machines humming!
