Small Items with Huge Impacts (We highly recommend!)

Heat Resistant COOL PINS

Cool pins are just that – COOL! Heat resistant up to 350 degrees Fahrenheit so you can iron right over them! Large pinheads are easy to grasp and manipulate. Easy to spot and remove because of colored tip. Sharp and fine, they leave no holes in your project. 50 pins in a reusable storage box. Tip is nylon, body is stainless steel. LOVE THEM!!!

DIAGONAL TAPE by Cluck Cluck Sew

Diagonal seam tape is simply tape that is placed on the front plate of your sewing machine to act as a guide while you are sewing diagonal seams.

The red thread in the center is aligned with the needle of the machine, the blue thread on both sides is 1/4 inch from the center of the line, representing a 1/4 inch seam edge. SURE MAKES DIAGONAL STITCHING EASIER!!

APPLIPOPS

Making perfect circles with these tools couldn't be simpler. Cut a little scrap of fabric, lay it on top of one circle, and press another into it. Trim up your fabric, and brush it with liquid starch. Tease fabric towards center of the circle, using finger. Press it, let it cool, and remove the Applipops. Press it one more time, and stitch it down. It is so easy, and results are AMAZING. Highest quality stainless which will NEVER rust, corrode or break, thinner than a dime, holds your fabric with beveled one side of the washer and the other side flat. The bevel ensures your fabric stays unmarred. AMAZING!!

HIGHLIGHTER TAPE

Highlighter tape can be used for anything where a highlighter pen works. But, it's awesome for marking your machine to get EXACT seams while sewing (1/4", 5/8" etc). It's easy to see, easy to remove, And repositionable. AWESOME!

Congrats
