

## Direct Patient Access Codes, and how to do PERC and BULK Orders

For a complete list of links for each company, with access codes for registering, and available discount codes for each company, go to: <https://imedmd.org/supplements>

For DOCTORS SUPPLEMENT STORE (DSSORDERS),  
USE REGISTRATION CODE: **MB189**  
USE DISCOUNT CODE: **HCPC189Welcome10**

It is a convenient way to order if you have protocol items from multiple companies. You can also find here EZKits for general bundled recommendations for all patients, or EZScripts for individual protocols recommended just for you. You will receive an email if an EZScript is made for you. You may find EZkits, at the top right menu, after logging in your account, with general protocols for immunity, muscle pain, sleep, etc.

They allow for a one time 10% discount code that you may use for your first order, or reserve for when a large order is needed.

If there's something you use frequently that they don't carry, please email the PERC and we'll request to see if they can carry your item for your next order.

The screenshot displays the 'doctors supplement store' logo at the top. Below the logo, a tagline reads: 'Quality matters! Pharmaceutical-grade nutraceuticals excel in potency, purity and absorption, while eliminating artificial ingredients, allergens and toxins.' A list of benefits is provided with checkboxes:

- Shop online at [www.DSSOrders.com/iMed](http://www.DSSOrders.com/iMed)
- Order by phone toll free: 877-846-7122, Option 1 (8 AM - 6 PM Central)
- Available [Auto Ship](#) program - FREE shipping and 5% off (after initial enrollment)
- Rewards: Purchases earn points for future savings
- Free U.S. shipping on orders over \$49

A coupon code is listed: 'COUPON - Save 10% on your first order: HCPC189Welcome10'. At the bottom, logos for payment methods (MasterCard, VISA, Discover, American Express) are shown.

### **Read this if you need help Deciding whether to Order at DSS Orders vs. Ordering with each company directly:**

Some companies offer a discount if you order directly through them, or offer 'sales' from time to time. To determine which is the best way for you to place your order, go to our [website](#), under 'supplements' to find the links, access codes, and discounts offered for each site. For some people, it might be more convenient to place a single order for all their protocol items at one site. For others, ordering from a particular company is recommended if it is the main company for your protocol items, when ordering products that need refrigeration, if they offer a discount code for items ordered through that company, or, for some companies, like DFH, if you need to receive your items faster.

### **PERC Orders**

To request any item not otherwise available through the Direct Patient Access Sites, please send a PERC Request by going to: <https://imedmd.org/resources>. Please make sure to include, brand, name, size/form, and quantity requested. Please use this for all Rocky Fork Formulas, Ortho-Molecular Products, and for any other implementation protocol item or sourcing, as needed. For these orders, the patient is responsible for shipping and dropship fees, and these orders cannot be discounted. For items that you use recurrently on your protocols, it is recommended that you order those as BULK orders so you can receive a discount for your order, and not have to pay any shipping.

### **BULK Orders**

Bulk orders are group orders that are done by the practice every few months to assist patients in lowering the cost of their protocol items. All orders requested will be placed as part of the group order, on the next BULK order date. An email will be sent to patients, and a notice on the main page of the website to notify patients of the dates for the next order. The typical discount is approximately 20% off retail for most brands.

Because these are orders paid for by the physician directly, both PERC and BULK orders must be paid in advance upon request of the item, and funds available before an order is placed on a patient's behalf.
