Important Information for New Patients

My goal is to assist you in obtaining an improved quality of life through natural healing techniques.

It is good to note that natural healing is not an immediate fix. Eastern medicine's goal is to achieve wellness by helping to supporting the root cause. Sometimes, the root cause of an illness started back in childhood. Because of this, it may take weeks to months to see the results of your transitional work. You should begin to feel changes fairly quickly in the process, but at times, it can take a length of time to see a change at a deeper level.

In order to help you meet your healthcare goals, the below information is very helpful in the process.

Follow up discussions are very important

- Call back seven days after your initial appointment. THIS IS VERY IMPORTANT. Herbal treatments can sometimes create a change after a day or longer. Checking in periodically, and communicating any changes you see, is very important. This will allow me an opportunity to review the change and see if we need to change up the herbal formula, increase or decrease dosage, or add a new herbal product. Report any and all changes or improvements you may be experiencing. Healing is an in-depth process similar to peeling an onion, layer by layer. We may make special changes to your program or customized formulas between visits.

Communication is Key

- Ask questions - transitioning from Western medicine to Eastern methodology can be confusing if you are new to it. I am here to help you understand every part of your healing journey. I am passionate about natural healing and want you to be comfortable and knowledgeable about the journey you are taking while working with me towards your unique health goals.
- Do not hesitate to call with any pertinent updates to your health, well-being, questions regarding the process, etc.
- Touch base to update on any medical tests and medication changes.
 - Stop your herbal supplements and call the office to inform me of any new medications you may be taking. I may need to modify your supplements accordingly.
 - It is also important to call me to inform me of any new medical tests you may have undergone or are about to do.

Your Appointments and Formulas

- Reschedule your follow up appointment as directed. This is the most important part of the healing process. This allows me to assess what is working, and what needs to be modified to meet your body's changing needs.

Your Formula - What You Need to Know

- Refill your herbal formulas between visits. Please call before your formulas run out.
- Please try to stay on your formulas. Call me if you feel there is a reason to stop your formulas. If there is an emergency stop all of your supplements and contact your doctor.
- As the formulas start to create a deep level of healing over time, I usually do not have to change formulas too often. Once this happens, you may order larger amounts of supplements during each refill.
- If you ever have a serious acute cold or flu, it is usually best to go off all your formulas until you talk with me. At that time I may find the formulas are okay or I may want to suggest something to help the infection resolve quicker.
- I obtain my herbal tinctures from Prairie Star Botanicals and Four Winds Natural Healing Center. Both herb clinics fully follow FDA's Good Manufacturing Practices (GMP's). Prairie Star Botanicals is required to follow the same safety, sanitation and record keeping that pharmaceutical companies do. They do extensive testing including: heavy metals, pesticides, contaminants, adulterants, bacteria, mold and fungi.
- Due to the unique nature of all supplements given to you, it is important that you do not share your supplements with anyone. We want to ensure the safety of everyone taking our recommended formulas, and we only know about your lifestyle, any medications you may be taking, etc.

Recommendations for Clients

- Don't feel bad if you can't stick to the whole program, nobody's perfect! The closer you follow the program, the better the results. The healthier your diet and lifestyle, the quicker the healing response will be.
- Do some longevity exercises such as yoga, tai chi, chi kung, walking, meditation, prayer and reflection. The healing effects of spending time in nature can never be underestimated.

Practices Regarding Disclosure of Patient Health Information

Services to be provided

I understand that herbs are considered to be food supplements and are utilized to strengthen and support overall health and wellness. Herbs, along with non-medical nutritional suggestions can serve as an excellent complimentary addition to a medical doctor's treatment, but I am not a substitute for a medical doctor - An herbalist can neither diagnose nor treat disease.

Risks/Possible Side Effects

The historical record and modern research indicate that herbs most often used for healthcare have an exceptional safety record. However, adverse reactions and unintended side effects can sometimes occur when taking herbs. Side effects that have occasionally been reported after using herbs include headaches, skin rashes and digestive upsets. Such effects generally resolve rapidly, especially if the dosage is reduced or the herb is stopped. Allergic reactions are also very rare but have been reported, usually in individuals with contact allergy to specific plants. Should adverse reactions or unpleasant side effects occur, I agree to discontinue taking the herbs and contact my herbalist as soon as possible. My herbalist may be able to propose measures to reduce any discomforts or may refer me to a physician or other healthcare practitioner.

Herbs should not be used in pregnancy or lactation without advice of a healthcare practitioner and clients who become pregnant should stop taking herbs until that advice is received. I understand and agree that it is important that I do not exceed the recommended dose of the herbs suggested by my herbalist.

Herb-Drug Interaction

Although herbs and other supplements have the potential to interact with pharmaceuticals, and certain herbs have been shown to have some effect on a limited range of pharmaceuticals, clinically significant interactions between most herbs and prescription drugs could occur. Nevertheless, some prescribed drugs are very strong and have a narrow range of safe dosage, which makes any interaction more risky. It is the responsibility of the clients to disclose fully any medications currently in use, including other herbs and supplements. Clients also are expected to inform their physicians of any herbs or supplements they are using. Any indication that the effect of a drug is being altered by simultaneous use of an herb should be reported directly to all health professionals involved. It is also advisable to stop taking herbs at least 48 hours before surgical operations, and in the event of being prescribed anticoagulants, antiepileptic drugs, and digoxin until expert advice is received.

Toxicity

All of the herbs that I use are generally considered safe and non-toxic at recommended doses for most people; however, it is important that the client use the herbs in accordance with the dosage recommended by the herbalist. As the liver and the kidneys are the body organs most vulnerable to any ingested or absorbed substance, it is also important that the client disclose to the herbalist any past or current disease in either of these organs. I also understand and agree to disclose to my herbalist any previous or current liver or kidney disease or related disease as well as any other condition that I believe may have an impact on my health status.

Information Disclosures

Other Professional Competencies

I understand that, should I need additional care from a practitioner licensed to practice another health care profession, I must seek that assistance from a separately licensed professional.

No Guarantees

I know that each person is unique and has ultimate responsibility for his or her own healthcare. I acknowledge that I have not received any guarantees or promises as to the results or success that will be obtained from the herbal and energy services provided.

Patient Responsibilities

I understand that it is my responsibility as a client to inform Willow Healing of:

- All aspects of my health
- Report any changes that occur post-appointment
- If I am pregnant and/or suspect pregnancy at any time while under care.
- If I experience any pain, discomfort or possible adverse side effects, it is my responsibility to immediately notify Willow Healing.

Medical Treatment

I am NOT a Medical Doctor, nor do I practice western medical assessment, diagnosis or treatment. I do not claim to cure disease, nor do I give advice about pharmaceuticals and prescription medications at any time.

I require all patients to be under the care of a medical doctor. I understand that if I am currently under a physician's care, I should continue as long as my physician deems necessary. It is my responsibility to consult with my physician before altering any medications or medical treatments. I understand that **Angela Green, Willow Healing** may request a physical exam if it has been over a year since my last exam.

If you have any questions or concerns about your condition, I highly recommend you discuss it with your physician. I can provide detailed letters to your doctor any time you request. I also recommend you inquire and explore any recommendations I provide with any other health care professionals. I understand also that if there is an emergency, or a worsening of my health condition, or if a new ailment or condition arises, that I should consult a licensed physician.

Fees and Charges

I have been informed of the fees for service, and I understand that payment is due when the services are provided.

I have read and understand this form and acknowledge that the purposes, goals, techniques, procedures, limitations, potential risks and benefits of the service(s) to be performed have been explained to me.
