

Put Your TV to Work for You!

Turn your TV(s) into a powerful form of advertising and guest awareness. Promote your brand and only your brand with MVP Media.

Benefits of Digital Media Marketing include:

- **Increased Engagement:** Digital displays capture 400% more views than static displays. This means your message, promotion, or information is more likely to be seen and acted upon.
- **Cost-Efficiency:** Gone are the days of repeatedly printing posters and banners. With digital signage, updates can be made instantly without the additional printing cost.
- **Flexibility:** Promote specials, limited-time offers, or upcoming events effortlessly.
- **Brand Consistency:** Maintain a consistent brand image and message. This uniformity enhances brand recognition and trustworthiness.

What differentiates us from the competition? We understand how digital display advertising can help customers spend more time and money at your bar or restaurant.

Let us do the work so you can focus on running your business.

HOW IT WORKS:

Location provides content request, photos (if available) via email or text.

MVA will create professional photo and/or video files.

MVA pushes media via the internet to MVP Player for display at your bar or restaurant.

Your club's content is displayed on the TV and get social media posts too!

Average slide length is 15-20 seconds. The media rotates through on a continuous loop. Recommended media loop length is 7-10 minutes.

TECHNICAL REQUIREMENTS: power, internet, and HD compatible TV
