

# SRS Whitepaper

Empowering Holders. Fueling Growth. Sharing Value.

## Introduction

Stash Rewards Sol (SRS) is a community-centric rewards token built on the Solana blockchain, designed to incentivize long-term holding and active participation through a seamless, automated rewards distribution system. Powered by a robust tax structure and transparent tokenomics, SRS is set to redefine how value is shared within decentralized ecosystems.

## Token Overview

- **Token Name:** Stash Rewards Sol
- **Ticker:** SRS
- **Blockchain:** Solana
- **Total Supply:** 750,000,000 SRS
- **Decimals:** 8
- **Burn Mechanism:** 5% Burned
- **Initial Liquidity Pool:** \$500
- **Transfer fee:** 8%

*An initial liquidity pool built with \$500 to start the project and as fees are collected a portion will be allocated for strengthening the LP.*

## Community Rewards Distribution

The **Community Rewards Pool** is the heart of the SRS ecosystem.

- **Automated Distribution:** Rewards are automatically calculated and distributed to eligible holders proportionally based on their SRS holdings.
- **Sustainable Payouts:** Designed to incentivize holding, the pool continuously replenishes from transaction taxes, enabling passive income for long-term supporters.
- **Transparency:** On-chain data ensures real-time visibility into the rewards mechanics and distributions

# Development Wallet Usage

The Development Wallet is crucial for the longevity and innovation of SRS:

- Partnership integrations
- Marketing campaigns
- Ecosystem enhancements
- Security audits and protocol improvements

## Liquidity and Stability

Stash Rewards Sol launches with a **liquidity pool of 2 SOL paired with 1,000,000 SRS**, establishing a **1 SRS = \$0.000002** starting price floor. A portion of the development funds will also be used to increase the strength of the liquidity pool

### *Liquidity Milestones*

As the project progresses and more funds are collected from the development allocation, additional contributions will be made to the liquidity pool. These milestones ensure continued liquidity growth and trading stability:

- **At \$1500 collected in development fees:**
  - \$250 worth of SRS and \$250 worth of SOL will be added to the liquidity pool.
  - Requires ~\$50,000 in total transaction volume.
- **At \$3000 collected in development fees:**
  - An additional \$500 liquidity pairing will be added (\$250 SRS + \$250 SOL).
  - Requires ~\$100,000 in total transaction volume.
- **At \$15,000 collected in development fees:**
  - A larger \$2,500 liquidity boost will be executed (\$1,250 SRS + \$1,250 SOL).
  - Requires ~\$500,000 in total transaction volume.
- **At \$30,000 collected in development fees:**
  - \$5,000 added to the pool (\$2,500 SRS + \$2,500 SOL).
  - Requires ~\$1,000,000 in total transaction volume.
- **At \$150,000 collected in development fees:**
  - \$25,000 liquidity injection (\$12,500 SRS + \$12,500 SOL).

- Requires ~\$5,000,000 in total transaction volume.
- **At \$300,000 collected in development fees:**
  - \$50,000 liquidity expansion (\$25,000 SRS + \$25,000 SOL).
  - Requires ~\$10,000,000 in total transaction volume.

Each liquidity addition will be publicly announced and verified to maintain community transparency and strengthen market confidence.

## Roadmap

### *Phase 1: Launch & Foundation*

- Token generation and LP deployment
- Initial DEX listing (Raydium / Jupiter)
- Community building and ambassador programs

### *Phase 2: Rewards Engine Activation*

- Launch of rewards
- Influencer and PR partnerships

### *Phase 3: Ecosystem Expansion*

- Additional CEX listings

## Security & Audit

Stash Rewards Sol contracts will undergo a comprehensive audit by a leading blockchain security firm prior to launch. All liquidity will be locked, and wallets will be doxxed to increase trust and safety.

## Conclusion

Stash Rewards Sol isn't just another token—it's a gateway to a vibrant, reward-driven economy on Solana. Through an equitable distribution system, sustainable tax model, and an unshakable commitment to the community, SRS is poised to make every holder a stakeholder in its success.

Join the Stash. Stack the Rewards.

Let the stache grow together.
