

2788 MacArthur Blvd, Lewisville, TX 75067, (214) 488-7737

Job Description – Lube Tech

Responsible for changing oil, replacing air filters, cabin filters, power steering, coolant, brake and transmissions flushes.

Candidates must have dependable transportation.

Lube Tech Skills and Qualifications:

Lube techs are professionals who work with their hands and perform many physical tasks to check, clean, and add fluids to vehicle engines of all types.

- **Communication** – lube techs work in a collaborative environment, which requires strong verbal communication skills
- **Time-management** – lube techs use time-management skills to perform many tasks within a tight deadline and maintain maintenance schedules for all vehicles
- **Customer service** – lube techs perform a service-based job that often involves customer interaction, so employers look for individuals with strong customer service skills to fill this role
- **Computer skills** – lube techs log information into digital systems and follow digital checklists for vehicle inspections, which requires basic computer knowledge
- **Driving** – lube techs must know how to operate and drive multiple types of vehicles, including manual transmissions
- **Physical ability** – lube techs lift heavy objects, bend, crouch, and crawl to perform their job duties, all which require physical ability
