Wastewater Treatment Plant Technician

Employment Type: 32 hours a week.

Salary- \$30-35 an hour DOE

Report To: Plant Superintendent/Operator

- **Job Summary:**

The Wastewater Treatment Plant Technician is responsible for the daily operation, maintenance, and monitoring of wastewater treatment systems to ensure compliance with environmental regulations. This role involves performing routine inspections, adjusting treatment processes, troubleshooting equipment issues, and maintaining accurate records. The ideal candidate will have technical knowledge of wastewater treatment processes, mechanical aptitude, and a commitment to safety and environmental protection.

- **Key Responsibilities:**

- Operate and monitor/inspect wastewater treatment equipment (e.g., septic tanks, pumps, filters, floats and chemical feed systems).
- Conduct routine testing and analysis of water samples to ensure compliance with regulatory standards.
- Adjust treatment processes based on test results and system performance.
- Perform preventive and corrective maintenance on plant machinery and infrastructure.
- Record and report operational data, including flow rates, chemical usage, and compliance metrics.
- Respond to alarms or system malfunctions and take corrective action as needed.
- Follow safety protocols and ensure compliance with OSHA, EPA, DOE, and local regulations.

- Assist in plant inspections, audits, and regulatory reporting.
- Maintain cleanliness and organization of the facility.
- Communicate effectively with supervisors, team members, and regulatory agencies.

- **Qualifications & Skills:**

- High school diploma or equivalent (additional certifications in wastewater treatment preferred but not required).
- Valid Washington State Driver's License
- Washington Wastewater Operator Certification (or obtained within 24 months).
- Previous experience in wastewater treatment, industrial operations, or a related field is a plus.
- Basic mechanical and electrical troubleshooting skills.
- Ability to read and interpret technical manuals, schematics, and SOPs.
- Strong attention to detail and problem-solving abilities.
- Willingness to work shifts, weekends, and emergency call-ins if required.
- Physical ability to lift heavy objects, climb ladders, and work in confined spaces.

- **Work Environment:**

- Primarily on-site at a wastewater treatment facility.
- Exposure to chemicals, odors, noise, and varied weather conditions.
- Use of personal protective equipment (PPE) as required.

- **Benefits:**

- **Health and Dental Insurance fully paid by employer**

- Paid Time off, Sick Time and Holidays
- Training and certification support

- **How to Apply:**

Interested candidates should submit a resume and cover letter to Super@Fishbaysewer.com
