

DATA PROTECTION POLICY

Policy: May 2018
Policy to be reviewed: September 2019 (or earlier as legislation dictates)

Introduction

PhoenixPlace collects and uses personal information about staff, pupils, parents and other individuals who come into contact with the school. This information is gathered in order to enable it to provide education and other associated functions. In addition, there may be a legal requirement to collect and use information to ensure that the school complies with its statutory obligations.

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The school is registered as a data controller with the ICO and will renew this registration annually or as otherwise legally required

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the [General Data Protection Regulation \(GDPR\)](#) and the expected provisions of the Data Protection Act 2018 (DPA 2018) as set out in the [Data Protection Bill](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

Purpose

This policy is intended to ensure that personal information is dealt with correctly and securely and in accordance with the Data Protection Act 1998, and other related legislation. It will apply to information regardless of the way it is collected, used, recorded, stored and destroyed, and irrespective of whether it is held in paper files or electronically.

All staff involved with the collection, processing and disclosure of personal data will be aware of their duties and responsibilities by adhering to these guidelines.

Roles and responsibilities

This policy applies to **all staff** employed by PhoenixPlace, and to external organisations or individuals working on our behalf. Staffs who do not comply with this policy may face disciplinary action.

Strategic Advice Panel

The SAP has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

The DPO will provide an annual report of their activities directly to the SAP and, where relevant, report to the board their advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the school processes, and for the ICO.

What is Personal Information?

Personal information or data is defined as data which relates to a living individual who can be identified from that data, or other information held.

Data Protection Principles

The Data Protection Act 1998 establishes eight enforceable principles that must be adhered to at all times:

1. Personal data shall be processed fairly and lawfully;
2. Personal data shall be obtained only for one or more specified and lawful purposes;
3. Personal data shall be adequate, relevant and not excessive;
4. Personal data shall be accurate and where necessary, kept up to date;
5. Personal data processed for any purpose shall not be kept for longer than is necessary for that purpose or those purposes;
6. Personal data shall be processed in accordance with the rights of data subjects under the Data Protection Act 1998;
7. Personal data shall be kept secure i.e. protected by an appropriate degree of security;
8. Personal data shall not be transferred to a country or territory outside the
9. European Economic Area, unless that country or territory ensures an adequate level of data protection.

Collecting personal data

Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

1. The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
2. The data needs to be processed so that the school can **comply with a legal obligation**
3. The data needs to be processed to ensure the **vital interests** of the individual e.g. to protect someone's life
4. The data needs to be processed so that the school, as a public authority, can perform a task **in the public interest**, and carry out its official functions
5. The data needs to be processed for the **legitimate interests** of the school or a third party (provided the individual's rights and freedoms are not overridden)
6. The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing which are set out in the GDPR and Data Protection Act 2018.

If we offer online services to pupils, such as classroom apps, and we intend to rely on consent as a basis for processing, we will get parental consent where the pupil is under 13 (except for online counselling and preventive services).

DATA PROTECTION POLICY

Policy: May 2018
Policy to be reviewed: September 2019 (or earlier as legislation dictates)

Limitation, minimisation and accuracy

- We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.
- If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.
- Staff must only process personal data where it is necessary in order to do their jobs.
- When staff no longer needs the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the school's records management policy

Sharing personal data

We will not normally share personal data with anyone else, but may do so where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a data sharing agreement with the supplier or contractor, either in the contract or as a standalone agreement, to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service, and information necessary to keep them safe while working with us

We will also share personal data with law enforcement and government bodies where we are legally required to do so, including for:

- The prevention or detection of crime and/or fraud
- The apprehension or prosecution of offenders
- The assessment or collection of tax owed to HMRC
- In connection with legal proceedings
- Where the disclosure is required to satisfy our safeguarding obligations
- Research and statistical purposes, as long as personal data is sufficiently anonymised or consent has been provided

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data to a country or territory outside the European Economic Area, we will do so in accordance with data protection law.

Appendix 1

PhoenixPlace

Procedures for responding to subject access requests made under the Data Protection Act 1998

Rights of access to information

There are two distinct rights of access to information held by schools about pupils.

1. Under the Data Protection Act 1998 any individual has the right to make a request to access the personal information held about them.
2. The right of those entitled to have access to curricular and educational records as defined within the Education Pupil Information (Wales) Regulations 2004.

These procedures relate to subject access requests made under the Data Protection Act 1998.

Subject access requests and other rights of individuals

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual

Subject access requests must be submitted in writing, either by letter, email to Kailash kumara/the DPO. They should include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

If staff receive a subject access request they must immediately forward it to the DPO.

Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children aged 12 and above are generally regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may not be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

Responding to subject access requests

When responding to requests, we:

May ask the individual to provide 2 forms of identification - Evidence of identity can be established by requesting production of:

- passport
- driving licence
- utility bills with the current address
- Birth / Marriage certificate
- P45/P60
- Credit Card or Mortgage statement

DATA PROTECTION POLICY

Policy: May 2018
Policy to be reviewed: September 2019 (or earlier as legislation dictates)

This list is not exhaustive.

- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We will not disclose information if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Is contained in adoption or parental order records
- Is given to a court in proceedings concerning the child

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee which takes into account administrative costs.

A request will be deemed to be unfounded or excessive if it is repetitive, or asks for further copies of the same information. When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO.

Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time
- Ask us to rectify, erase or restrict processing of their personal data, or object to the processing of it (in certain circumstances)
- Prevent use of their personal data for direct marketing
- Challenge processing which has been justified on the basis of public interest
- Request a copy of agreements under which their personal data is transferred outside of the European Economic Area
- Object to decisions based solely on automated decision making or profiling (decisions taken with no human involvement, that might negatively affect them)
- Prevent processing that is likely to cause damage or distress
- Be notified of a data breach in certain circumstances
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)

Individuals should submit any request to exercise these rights to Kailash Kumari, who will liaise with the DPO. If staff receives such a request, they must immediately forward it to the Kailash Kumari/DPO.
