dm DIGITAL MOTORS

Digital Motors stands today as India's No.1 BLDC fan manufacturer, having transformed the nation's cooling landscape through precision-engineered, energy-efficient motor technology. With a legacy of innovation and manufacturing excellence, we power millions of homes with fans that deliver up to 65% energy savings, whisper-quiet performance, and unmatched durability. Our state-of-the-art facilities combine advanced automation with rigorous quality protocols, establishing the benchmark for BLDC technology across the subcontinent.

Our Aim

While we lead the branded market, our strategic trajectory is evolving. We aim to become India's No.1 BLDC fan OEM manufacturer—the definitive manufacturing backbone for leading brands, retailers, and enterprises. We offer comprehensive OEM solutions, from proprietary motor core technology to finished product assembly, enabling our partners to launch market-leading fans under their own banners with zero-compromise quality and speed-to-market.

Precision Engineered. Energy Efficient. Built for Brands.

Why it saves Power?

BLDC Technology

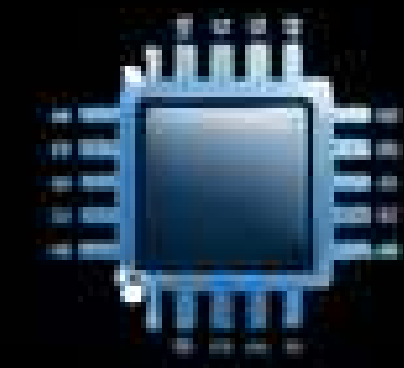

EFFICIENCY REDEFINED

The Efficiency Advantage:

Brushless Design

No mechanical friction; energy converts directly to rotation

Smart Electronics

Precision speed control draws only the power needed

Magnetic Efficiency

Permanent magnet rotor eliminates copper losses

Power Factor > 0.9

Near-perfect electrical utilization vs. 0.6–0.7 in conventional fans

Real Savings:

- Consumes just **28–35W** versus **70–150W** in standard fans
- Cutting energy costs by up to **65%** while delivering superior air delivery.

Why Choose Digital Motors BLDC Fans?

Save 60–75% Electricity with Advanced High-Efficiency BLDC Motor Technology

Traditional Induction Fan

- Power Consumption: 75W
- Higher Electricity Bills
- Higher Heat Loss
- Lower Efficiency
- Conventional Motor Technology

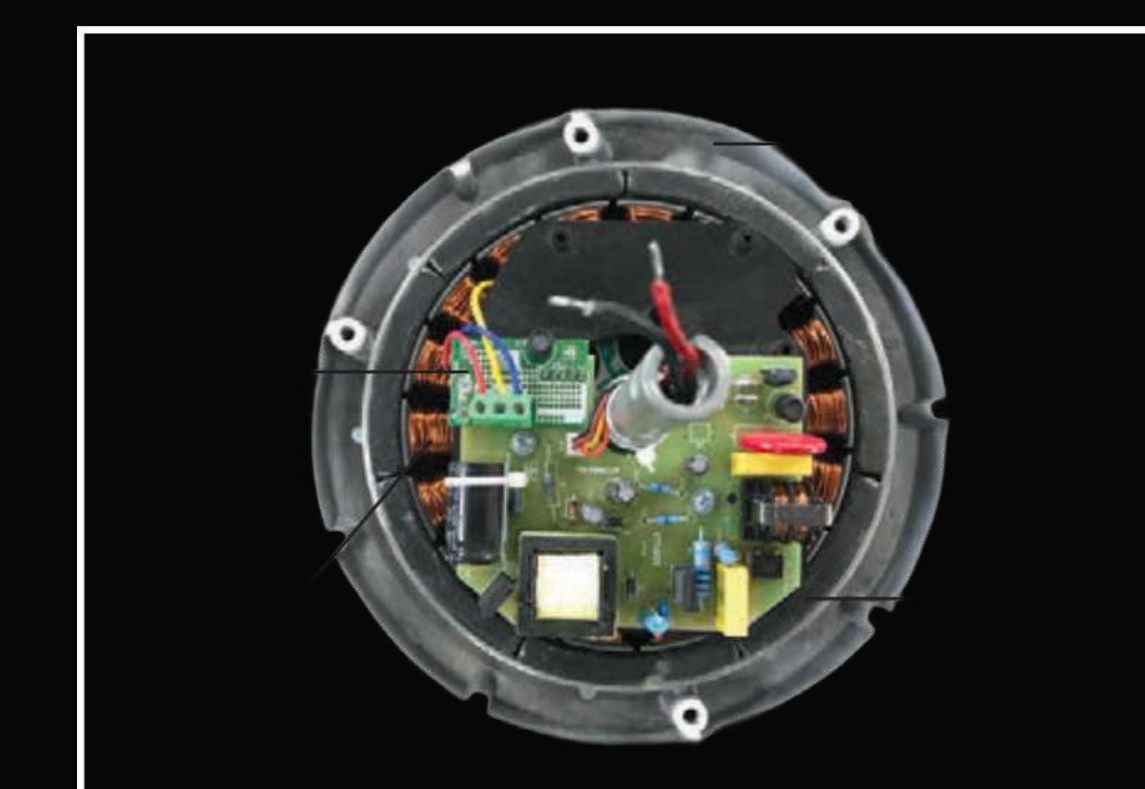

Digital Motors BLDC Fan

- Power Consumption: 28W
- Lower Electricity Bills
- High Energy Efficiency
- Advanced BLDC Technology
- Smart Power Saving

OUR PCB ASSEMBLY

REMOTE SENSOR AND LED INDICATORS

Experience Superior Air Delivery

Designed for Maximum Comfort, Efficiency & Coverage

Ideal Installation Guidelines

Standard Ceiling Installation

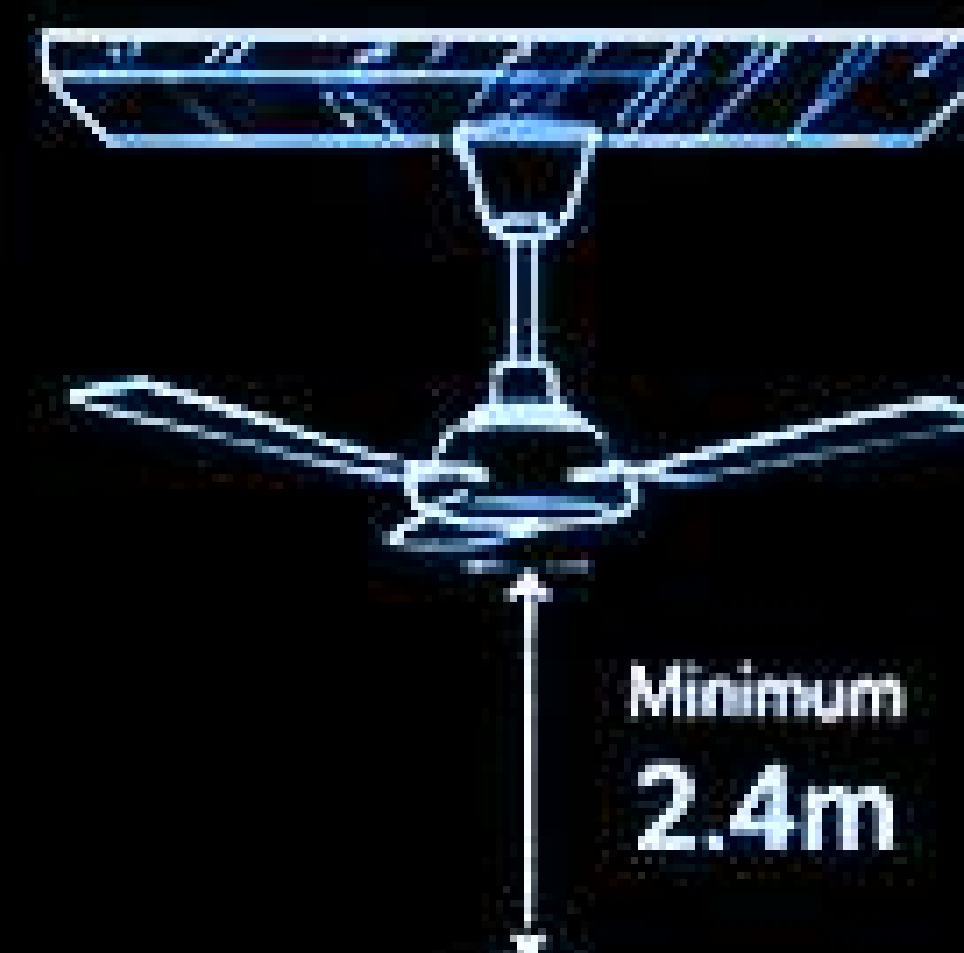

Suitable for regular ceiling height (Above 2.7m)

Low Ceiling Installation

Ideal for low ceiling heights (Below 2.7m)

Recommended Floor Clearance

Ensure minimum 2.4m clearance from floor to blade

Recommended Blade Clearance

Ensure minimum 0.3m clearance from wall/obstruction to blade tip

Choose the Right Fan Size for Every Room

600mm

Up to 8 m²

Small Room
(Up to 8 m²)

900mm

Up to 15 m²

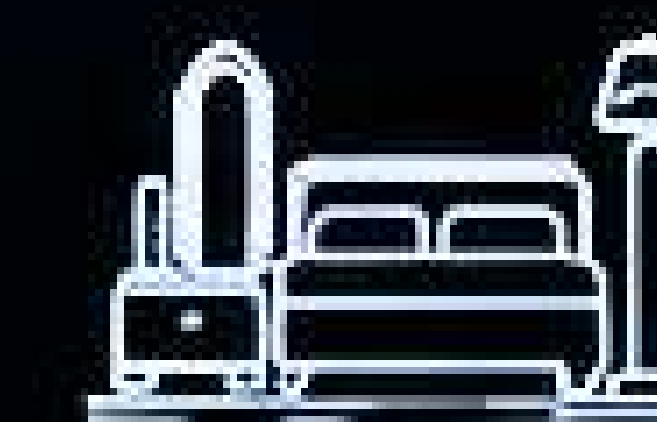

Medium Room
(Up to 15 m²)

1200mm

Up to 25 m²

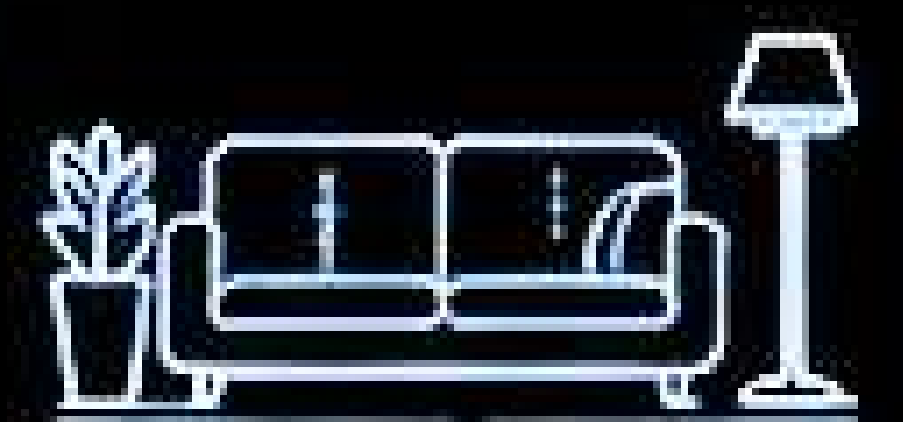

Large Room
(Up to 25 m²)

1400mm

Up to 35 m²

Living Room
(Up to 35 m²)

Air Delivery vs RPM

Higher RPM doesn't always mean better air delivery. Optimized blade design & motor efficiency ensure maximum air delivery at lower power.

Importance of Sweep Size

The right sweep size ensures uniform air circulation and maximum comfort for your room size.

Energy Saving Benefits of BLDC Technology

BLDC motors consume up to 65% less energy, deliver higher performance and ensure a longer lifespan with low maintenance.

Built for Performance. Designed for Comfort.

High Air Delivery

Optimized blade design for maximum air circulation.

Energy Efficient BLDC Motor

Consumes up to 65% less energy.

Silent Operation

Engineered for noise-free performance.

Premium Aerodynamic Blades

Designed for better lift, air delivery & efficiency.

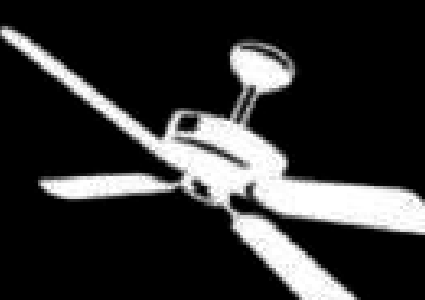

Long Life Performance

Built with high-grade materials for durability and reliability.

SILENT FANS

Feel the
air flow
without the
noise

OUR MANUFACTURING CAPABILITIES

INDIA'S NO.1 OEM MANUFACTURER
OF BLDC CEILING FANS, EXHAUST FANS
& INDUSTRIAL AIR CIRCULATORS

We don't just manufacture products; we build brands.
Whether you have a finished blueprint, a rough concept,
or simply need a market-ready product with your logo on it,
our facility is equipped to bring your vision to life.

Advanced
Manufacturing
Facility

Strict Quality
Control

Scalable
Production

End-to-End
Solution

OUR PRODUCT LINES

BLDC CEILING FANS

Specializing in highly
energy-efficient
ceiling fans.

BLDC EXHAUST FANS

Powerful ventilation
with low noise
& high efficiency.

BLDC INDUSTRIAL AIR CIRCULATORS

Engineered for large
spaces. Built to perform.

OTHER CUSTOM PRODUCTS

We build what
your brand envisions.

CUSTOM SOLUTIONS: OEM, ODM & WHITE LABEL

1. OEM

Original Equipment Manufacturing
"Your Design. Our Production."

You provide the tech-packs, the designs, and the specifications; we provide the raw materials, the machinery, and the workforce. We manufacture your exact product to your precise standards, acting as your silent, high-capacity factory.

Best for: Brands with established product designs looking to scale up production.

2. ODM

Original Design Manufacturing
"Our Concept. Your Brand."

Have a great product idea, but don't have an R&D (Research & Design) team? Tell us what you want to achieve. Our in-house engineers and designers will develop, prototype, and manufacture a completely new product from scratch, exclusively for your brand.

Best for: Companies wanting a unique, ground-up product without the cost of an in-house design lab.

3. WHITE LABELING

Ready-to-Market Solutions
"Our Formula. Your Logo."

The fastest way to enter the market. Choose from our catalog of pre-tested, top-selling, fully developed products. We will manufacture them, print your company's logo on them, and package them in your custom branding.

Best for: Retailers, influencers, or new businesses wanting to launch a high-quality product line immediately with low risk.

THE DIGITAL MOTORS ADVANTAGE

Strict Quality
Control

Rigorous testing at
every stage of the
assembly line.

Scalable
MOQs

Production runs built
to accommodate both
growing brands and
global giants.

Total
Confidentiality

Guaranteed NDA
(Non-Disclosure
Agreement) protection
for all your designs.

End-to-End
Service

From raw material
sourcing to final
custom packaging.

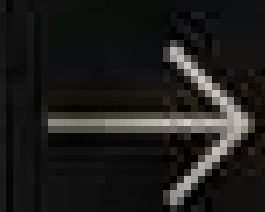

OUR 4-STEP COLLABORATION PROCESS
