ABOUT OUR COMPANY

Acolar AI is a strategic AI enablement partner, guiding organizations through the complexities of AI adoption with a structured, human-first approach. We help businesses integrate AI responsibly, ensuring it aligns with their goals, culture, and operations.

Acolar AI provides an end-to-end AI transformation framework, supporting organizations from awareness to full-scale implementation. Through our ecosystem of AI vendors and solution providers, we deliver tailored AI strategies, cutting-edge technologies, and industry best practices to drive real business impact.

Acolar AI LLC

OUR TEAM

As CEO and founder of Acolar AI, Sannette Coetzee leads large-scale transformation, AI integration, and business strategy. With leadership experience at Visa and PayPal, she helps executives and entrepreneurs adopt AI, modern operating models, and cultural transformation for lasting success.

Stacy Mill, CTO of Acolar AI, leads AI innovation and adoption with a focus on secure, scalable, and ethical solutions. She brings executive experience from NES, State of Kansas, Spirit AeroSystems, KAR Global, Yum Brands, and Humana Military, aligning tech strategy with business goals.

A 90-day, low-risk, high-impact AI experiment, where we guide you every step of the way to implement AI solutions, measure results, and drive real business value.

05 CUSTOM SOLUTIONS

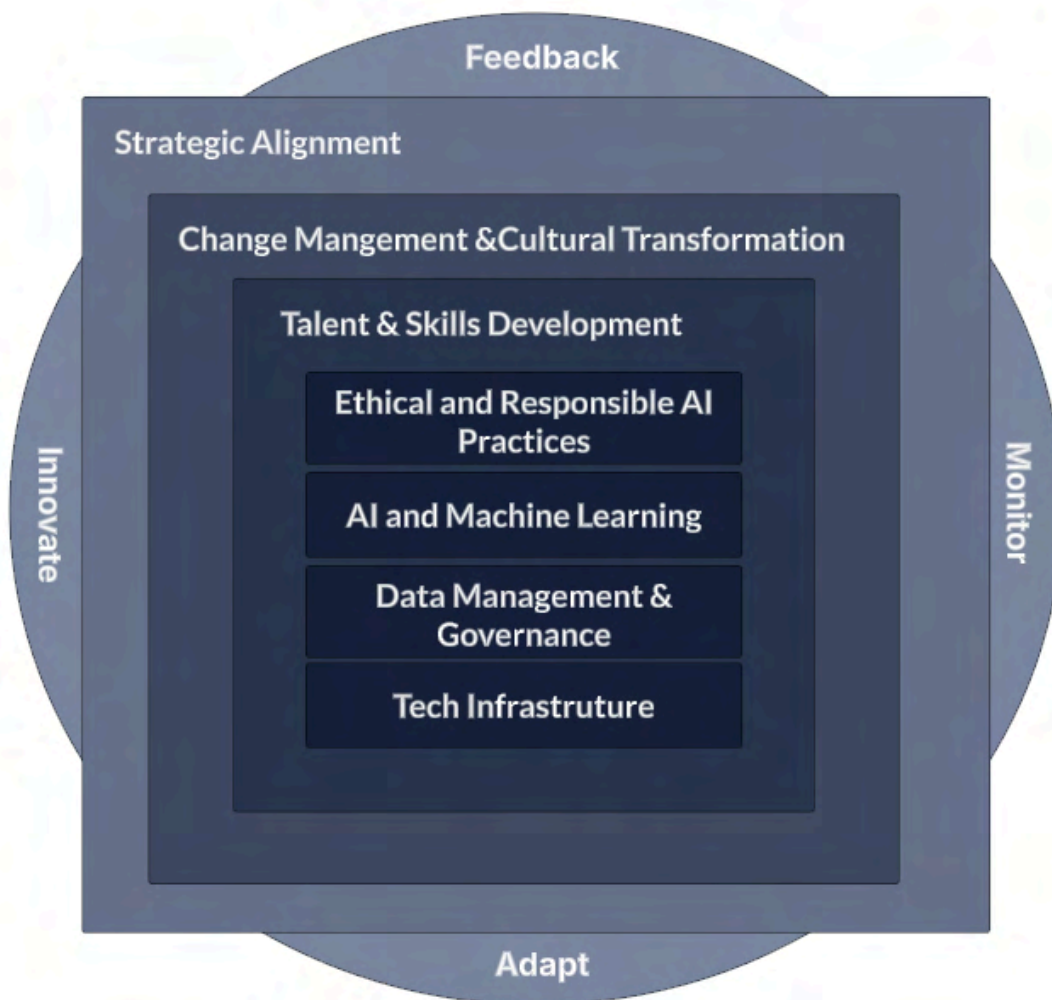

The whole enchilada—a step-by-step approach to making AI a core part of your business.

01 READINESS ASSESSMENTS

MATURITY MODEL : KEY DIMENSIONS

Our AI Readiness Assessment evaluates your organization across eight key dimensions, providing a structured roadmap for AI enablement and adoption.

01 READINESS AI ASSESSMENTS

MATURITY MODEL : LEVELS

To better understand your organization's journey, it's helpful to break down AI maturity into five levels:

AWARE

Organizations are aware of AI but have not begun formal initiatives.

AD-HOC

Initial AI projects are underway, No formal AI strategy or governance is in place.

SYSTEMATIC

AI projects are more coordinated and systematic into business processes. A formal AI strategy exists.

INTEGRATED

AI is embedded across the organization and strategically aligned with business goals

TRANSFORMATIONAL

The organization uses AI as a strategic differentiator, creating new AI-powered products and services for customers.

01 CULTURAL AI READINESS

CULTURAL READINESS : DIMENSIONS

AI success depends not just on technology, but on people, mindset, and culture. Our assessment evaluates an organization's cultural readiness for AI adoption across six key dimensions:

02 CXO WORKSHOP

Unlocking Competitive Advantage in 2025

FORMAT

- Live & Interactive 2-Day Workshop (In-Person)
- Duration: 6 hours per day (In-Person), 9AM - 3PM, Networking until 5PM
- Engagement Style: Presentations | Case Studies | AI Tool Demos | Group Discussions | Hands-on Exercises

AUDIENCE

This workshop is designed for CEOs, CTOs, CIOs, and senior decision-makers who want to move beyond AI experimentation and into real-world implementation.

VALUE PROPOSITION

- Demystify AI for Business Leaders – Understand AI's impact beyond hype and how it transforms enterprises.
- Explore Real-World AI Strategies – Learn from global and Indian industry case studies on AI-driven growth.
- Experience Hands-On AI – Engage with live demos of AI-powered enterprise tools tailored for CXOs.
- Assess AI Readiness – Use Acolar's AI Maturity Model to determine where your company stands.
- Leverage Culture as a Competitive Advantage – Learn how people-first AI adoption accelerates success.

03 AI STRATEGY

Sprint From Vision to Execution in 4 Days

FORMAT

- Live & Interactive 4-Day Workshop (In-Person/Virtual)
- Duration: 6 hours per day 9AM - 3PM,
- Engagement Style: Facilitated, workshops, breakouts and working sessions

AUDIENCE

Senior executives and decision-makers who recognize AI's transformative potential but need a structured approach to move from strategic vision to practical implementation, including C-suite leaders driving organizational change, business unit heads seeking competitive advantage, and transformation leaders tasked with delivering measurable AI impact.

VALUE PROPOSITION

- Compress months of strategy work into 4 focused days
- Leave with actionable AI roadmap and implementation plan
- Learn from cross-industry AI success patterns
- Network with peer executives facing similar challenges
- Gain frameworks for AI prioritization and execution
- Avoid common AI implementation pitfalls
- Access to expert facilitators and practitioners

03 AI STRATEGY

Sprint From Vision to Execution in 4 Days

OUTCOMES

Concrete Deliverables

- Customized AI strategy document
- Prioritized use case portfolio
- Organizational readiness assessment
- 12-month implementation roadmap
- Resource allocation plan

Strategic Clarity

- Clear AI vision and objectives
- Prioritized opportunities
- Risk mitigation strategies
- Buy-in from key stakeholders

Actionable Next Steps

- 30-60-90 day action plan
- Quick win implementation guide
- Team structure and roles defined
- Success metrics established

04 90-DAY AI ACCELERATOR

A 90-day intensive program where your team works alongside AI experts to transform your highest-priority use case from concept to production, building both a working AI solution and the internal capabilities needed to scale AI across your organization.

FORMAT

- 90-day guided implementation program
- Weekly 2-hour sprint reviews
- Bi-weekly executive steering committee
- Daily stand-ups with technical teams
- Hybrid delivery (in-person & virtual)
- Dedicated technical mentorship
- Real-time experimentation & iteration

AUDIENCE

Business leaders and their implementation teams who have identified their priority AI use case and need structured support to move from concept to production, including the technical team that will own the solution, business stakeholders who will be impacted, and executives who will measure success.

04 90-DAY AI ACCELERATOR

VALUE PROPOSITION

- De-risk AI implementation through guided experimentation
- Fast-track from concept to production-ready solution
- Learn by doing with expert technical oversight
- Build internal capabilities while delivering results
- Create replicable patterns for future AI initiatives
- Measure and validate business impact early
- Establish governance and scaling frameworks

OUTCOMES

Technical Deliverables

- Production-ready AI solution
- Technical documentation & playbooks
- Data pipeline architecture
- Performance monitoring dashboard
- Security & compliance framework

Organizational Capabilities

- Trained internal AI team
- Implementation playbook
- Governance framework
- Scaling strategy
- Knowledge transfer plan

Business Outcomes

- Validated ROI metrics
- User adoption metrics
- Process improvement measures
- Cost reduction calculations
- Quality improvement metrics

05 TAILORED AI ADOPTION

CUSTOM AI INTEGRATION FROM STRATEGY TO SCALE

AI adoption isn't a one-size-fits-all journey. At Acolar AI, we recognize that every organization has unique challenges, goals, and levels of readiness. Our Tailored AI Adoption Solutions provide a fully customized, end-to-end AI enablement framework, ensuring AI is seamlessly integrated into your business operations in a way that aligns with your strategy, culture, and long-term objectives.

A STRUCTURED FRAMEWORK FOR AI TRANSFORMATION

We guide organizations through a step-by-step AI adoption roadmap, moving from exploration to full-scale AI implementation and long-term optimization. Our framework ensures AI is not just a technical upgrade but a strategic enabler that enhances efficiency, decision-making, and innovation.

05 TAILORED AI ADOPTION

WHAT WE OFFER

AI Strategy & Readiness Assessment – Evaluate your current capabilities and build a clear roadmap.

Custom AI Implementation Plan – Design AI solutions tailored to your industry and operational needs.

Technology & Vendor Curation – Connect with leading AI vendors and tools for seamless integration.

AI-Driven Culture & Change Management – Ensure adoption success with training, leadership alignment, and cultural transformation.

Scalability & Governance – Establish frameworks for ethical AI use, compliance, and long-term sustainability.

WHY ACOLAR AI

- End-to-End Expertise – From strategy and execution to scaling AI across your organization.
- Human-Centric Approach – AI solutions that empower people, not replace them.
- Measurable Business Impact – We focus on real outcomes, optimizing AI for tangible ROI.

05 TAILORED AI ADOPTION

OUR FRAMEWORK

VISION & MISSION

VISION

At Acolar AI we envision a future where AI seamlessly enhances business ecosystems, making organizations agile, intelligent, and human-centered.

MISSION

Empowering organizations to harness AI responsibly, integrating technology with human intelligence to drive innovation, efficiency, and sustainable growth.

THANK YOU

OUR VISION FOR YOU, FOR EVERYONE

A future where AI and human intelligence work in harmony, empowering businesses to innovate fearlessly, operate efficiently, and grow sustainably.
