

## **TRUMP IS WRONG FOR AMERICA**

**By Stan Purdy**

I have been a Republican all my voting life. I continue to believe in the traditional principles of the Republican Party ie limited government, economic and judicial freedom and equality for all, especially the poorest of us, and a strong military. I have run for office as a Republican and campaigned for Republicans.

I will not vote for Donald J Trump for President in the 2024 Presidential Election. I firmly believe he is wrong for America. He will name a White House staff and a cabinet that will do his bidding and not what's in the best interest of the country, his proposed immigration policies are inhumane, his statements of authoritarianism promise to undermine democracy, he will weaponize the Department of Justice to prosecute his perceived critics and enemies. If he loses he will likely incite another insurrection with another "big lie".

In addition to not voting for Trump, I have formed a Political Action Committee, BROWN COUNTY COMMITTEE TO SAVE DEMOCRACY, LLC with the purpose to defeat Donald J. Trump for president. It is registered with the Federal and Ohio Election Commissions. There is an ad elsewhere in this paper with more information and an opportunity to join in the campaign.

Depending on contributions the Committee will engage in the usual campaign activities.
