

# THE NEW PLATFORM FOR VIDEO SECURITY

Enterprise video surveillance systems that is limitlessly scalable, smart, and simple to use.

## THE ALL-IN-ONE SYSTEM

## REDUCE COMPLEXITY AND COST

No NVRs/DVRs, no open ports, no additional hardware equipment — Verkada is so easy to use that it works for everyone.

## GAIN POWERFUL NEW CAPABILITIES

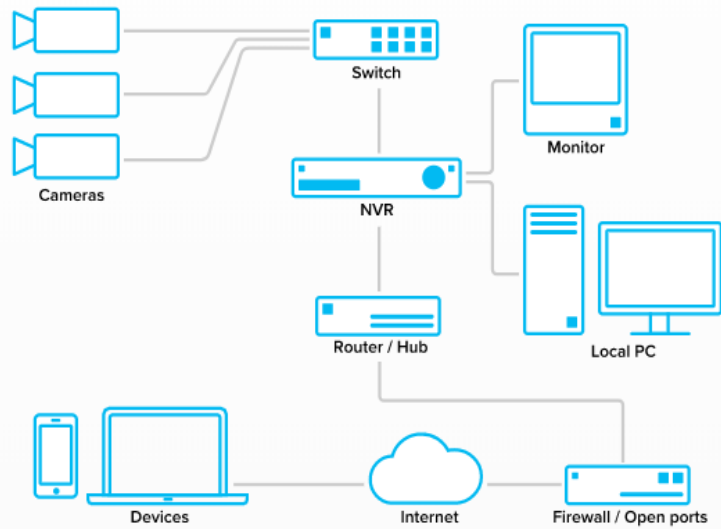

View video on any device, get alerts when things aren't right — **even send first responders a live camera feed via SMS/Text.**

No Open Ports - No NVR's - No Old Firmware

## CLOSE DATA SECURITY GAPS

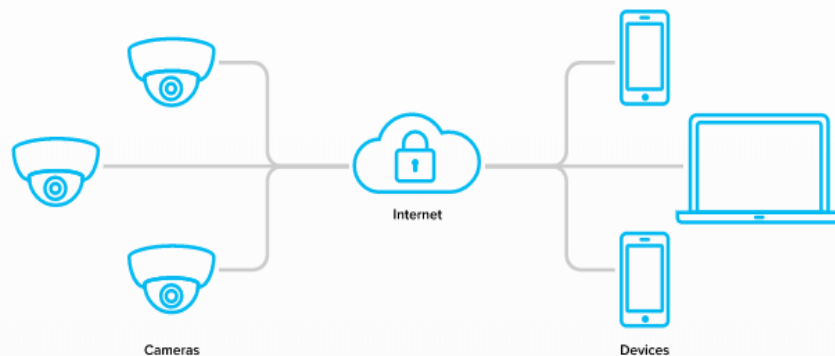

No more manual updates, outdated firmware, or port-forwarding — Verkada keeps you protected with automatic software updates.

## TRADITIONAL SYSTEM ARCHITECTURE

Traditional video security systems are complex, requiring special setup to enable remote access, encryption, and other modern capabilities.

## VERKADA SYSTEM ARCHITECTURE

Verkada is different by design. We replace obsolete equipment with technology that's smart, secure, and easy to manage — by default.
