NESTABLO RAMOS

20 WICKED DINOSAURS FOR COLORING

PRINTABLE COLORING E-BOOK

A Brasília resident born in Rio de Janeiro, Nestablo Ramos has been enthralled by the art of drawing from a very young age. He started his career as an illustrator and animator in 1993, in the advertising marketing. He published his first authorial work independently in 1998, and has not stopped since. Since then, he has won several awards and been published by several publishers. He has drawn stories for the Teen Lulu comic book, rock band Iron Maiden's mascot - Eddie - and Disney characters, like Grandma Duck, Panchito Pistoles and Gyro Gearloose.

Among his most well-known works are the books ZOO, ZOO - Predators Games ("Jogos de Predadores"), PET, Jailers ("Carcereiros") and Human Nature ("Natureza Humana").

He's currently working on projects for raising environmental consciousness using comics and is also the host of webradio show Energizando. He also works as a designer and professional illustrator. Nestablo is, above all, a lover of animal wildlife and a fierce critic against violence. These are recurring themes in his work, approached with a sense of adventure and humour.
