

Solar For Her

Empowering Girls with Solar Powered Classrooms!

<https://solarforher.com/>

Campaign Connector

As a Campaign Connector, a volunteer is expected to help us in identification of potential girls' schools, provide relevant data, mobilize resources to transport and install equipment in their own identified school and do regular follow ups.

We look at certain leadership skills in potential individuals to be selected as a Campaign Connector!

- Passionate to work as a volunteer in a cause / community work
- Interest in the areas of solar technology, girls education, climate change
- Networking, communication and presentation skills
- Affiliation with voluntary groups / organizations and networks
- Experience in effective use of social media
- Availability for information sharing, follow ups and publicity

Are you the one who can be part of our wonderful community? Apply as a voluntary Campaign Connector and help girls access solar powered classrooms!
