https://solarforher.com/

B) Short video

Share with us a short video of less than two minute duration of the school. Make sure the video clearly shows the following;
a) School building from a distance
b) Students studying in the classrooms
c) Suitable place for solar panels installation
d) A quick view of surrounding area

You can post your video on social media (facebook, linkedIn, twitter etc.) and share its link with us. Otherwise, you can send us the video on this email;
solarpoweredschool@yahoo.com

C) Photos

Share with us photos of the school either through email on solarpoweredschool@yahoo.com or share them through social media link i.e. facebook, twitter etc. Send us at least the following photos;

- Photo showing the school building from a distance
- Photos showing the students in classrooms
- Photo of suitable place for solar panels installation (rooftop and/or ground)
- Photos of electrical wiring and main board
- Photo of the surrounding area

Note: We encourage Campaign Connectors to send us complete details of the potential school i.e. a) basic Information b) video and c) photos all together. Incomplete information would make it difficult for our core committee to take decision on identified school.

In case a school is selected, we'll contact relevant person soon.

Once we raise sufficient funds for selected school through donations, we then move to the stage of procurement and installation!
