A list longer than a six-year old's wants to Santa Claus. Ahhh days before *"Boots, fists being hog-tied a couple of times a week at least by 'Marshall, Faulkner, and Saunders, of ACDC,' for painting Janice an M&M picture, ran over while jogging by dave for writing books on 'Love, Humanity and Human Trafficking.'"*

Heretofore, pertained to fraud via *"Al Hutton, and Westminster Police Department,"* and can be proven beyond a reasonable doubt; *"Per Honorable Judges in Superior Courts of California"*. Hereafter and living back in Corona del Mar, CA and a Certified Mediator for the Superior Courts of California a few Judges, prosecutors, and lawyers in Orange County, CA, stated: *"Michael they (Westminster Municipalities & Adams County, CO), will keep trying to 'hymn-you-up for having a daughter with your shelter counselor.' ATTACKING, my Chronic Pain, knives in hand, slicing, gashing exacerbating my Chronic Pain, which keeps my eyelids from lowering and previous to the *"SAPSS of Adams*

*County and their Habitual Criminal Nature and Hate Crimes!"* I was able to reach the REM stage. I haven't slept well in over eight years! *"Whereas my previous X-Girlfriends can attest that not long after laying down in bed and without making love my eyelids were fading and I would almost be asleep simultaneously as my head landed on the pillow."* Now all I have are a few REM songs replaying in my head as I count the dimples in the ceiling, 8,279,175 still counting... and am lucky if I can manage four-hours of continuous sleep.
