

I am the Lucky Sunflower!

I live in the historic town of Front Royal with my family. Looking back over the years , I don't remember a time that I didn't see the world around me creatively different. Living a big creative beautiful life of crafts, art supplies and making cool things! I tend to get lost in my creations and the beauty of the small things. I become terribly giddy over babies, butterflies, and sunflowers. I spend my spare time supporting our community and volunteering for local organizations.

I have been creating art, designing graphics, and making crafts for over 25 years. As a freelance graphic artist, I have worked with many local businesses and business owners. I believe that we are creative and sometimes you just need the right instrument (that's me -I am the instrument) to help bring your ideas to fruition.

Looking at my work, you will see I believe in complete creative flow, and I don't stick to one style or media. It is my hope that you enjoy my creations as much as I enjoy creating them.
