

November 2026 Election Castro Valley School Board Area 4

Dr Joseph “Doc” Grcar

ISSUES

**PUT PARENTS
BACK IN CHARGE.**

Credit Jeff Frese for CA-10.

My philosophy is put parents back in charge. Nobody knows your child better than you do, and the system should answer to you.

Plus, send the money to the classroom, not the bureaucracy. Measure results, not spending.

And back to basics: English, math, and critical thinking. Teach students to read and add before anything. *Then, prepare them for financial and AI literacy* —skills for the world they're going to live in.

This is not left or right, blue or red. Schools should teach. That's the whole job.

**PUT PARENTS
BACK IN CHARGE.**

#2 RECENT CONFLICTS

1. Repeal proportional or equity grading.

The School Board replaced A-F with A-C.

2. Add advanced placement (AP) classes

for all who want them and in all grades.

3. Teach calculus earlier.

Students need it for AP physics.

The math curriculum is dumbed down.

4. Re-hire PlayCV.

The Board recently dumped our home-grown after school program.

#2 RECENT CONFLICTS, CONT.

5. Triage the Measure B bond fiasco.

What consultant said it would pass?

6. Be sure students master the course.

Retrain teachers who pass failing students.

7. Provide school resource officers (SROs).

8. Stop hiding behind the Brown Act.

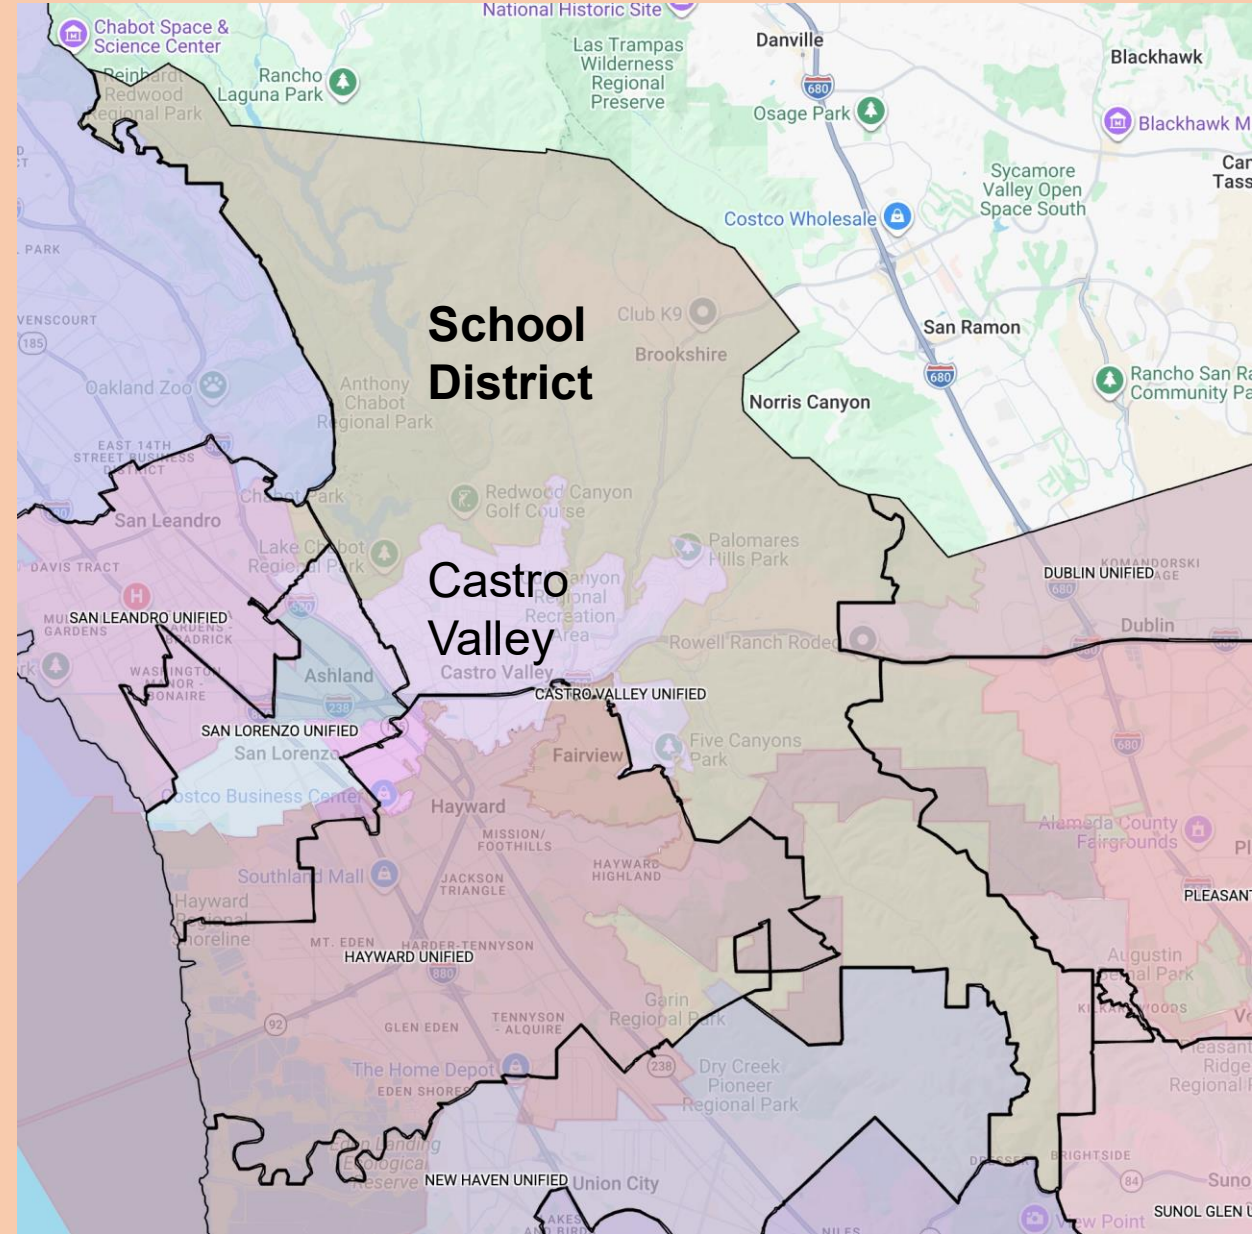

The School Board refuses to talk.

I will have office hours for constituents.

9. Strike all-gender changing rooms from the Master Plan. State law doesn't require them.

#3 BUILD AI DATA CENTERS

Use eminent domain to
build AI data centers
in uninhabited parts of
the school district.

#3 BUILD AI DATA CENTERS

Use eminent domain to
build AI data centers
in uninhabited parts of
the school district.

Huge tax revenues can:
double teachers' pay,
rebuild all the schools,
pay students to go to
school, and more!

**PUT PARENTS
BACK IN CHARGE.**
